PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1861
returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as is practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for each Sub-district; and the form of the return has also enabled these to be localised to their several parishes and places. Although, from the extent of many of the Ports, and the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

NOTE.—The new District Parishes and Ecclesiastical Districts formed under the authority of various Acts of Parliament will be found returned in a supplemental Table (A.) at the end of the return of population, &c. in parishes.

The letter (W) denotes that a Workhouse is situate within the limits of the parish or place, and included in the return. A Table showing the number of persons in the principal Public Institutions in each District will be found at the end of the Division ; see Table (B.)

Persons on board vessels on the night of April 7th, 1861, are returned with the general population ; for details, see Table (C.)

The names of places printed in capitals (thus, CRICKLADE) are those of parishes which contain TOWNS of the same name ; Cities and Boroughs are distinguished in the same manner. A detailed statement of the population of the Cities, Boroughs, and Towns of upwards of 2000 inhabitants is given under the respective counties in Part I.

Where the name of the Registration or Union County in which a parish or place is returned is different from that of the county proper to which it belongs, the latter is stated in *italics*.

The AREAS of parishes and places are reprinted from the Census Tables of 1851 ; the quantities distinguished by a different type (thus, 2620, Stratton St. Margaret) were assigned to the parishes and places by the late Mr. Rickman in the Enumeration Abstract for 1831 ; in these cases the records in the custody of the Tithe Commissioners did not supply the means of arriving at a more accurate result. The Areas marked thus (w) include Water or Sea Coast ; for details, see Table (D.)

250. HIGHWORTH. * The decrease of population in the tythings of Highworth, Westrop, Eastrop, and Broad Blunsdon, and in Castle Eaton parish, is mainly attributed to the migration of young persons to towns.

† The decrease of population in Little Hinton is mainly attributed to the removal of the rector, and of a few farmers with their families.

‡ The large increase of population in Swindon is attributed to the circumstance of the railway station being situated in the parish, and to the establishment of a factory and iron-works.

251. CRICKLADE. † The increase of population in Liddiard-Millicent is attributable to the proximity of the parish to Swindon Railway Station.

¶ For the Borough of Cricklade, see Part I.

252. MALMSBURY. † Part of Crudwell parish is in the Malmsbury Western Sub-district (252 : 2).

‡ The whole of Hankerton parish, except one house called Bishop's Farm (in the Malmsbury Western Sub-district, 252 : 2), is in this Sub-district.

^a The *Malmsbury Eastern Sub-district* comprises all those parts of the parishes of Crudwell, Charlton, Hankerton, and St. Paul, Malmsbury (including the parts of Milbourn, Burton-Hill, and Corston tythings) situate eastward of the turnpike road leading from Chippenham to Malmsbury, up the High Street of Malmsbury as far as the Cross, and thence along Upper and Lower Oxford Streets, and along the turnpike road leading to Cirencester. The *Malmsbury Western Sub-district* comprises the remaining parts of the said parishes and tythings.
^b For the *Borough* of Malmsbury, see Part I.
^c The area of Abbey parish is included with that of St. Paul, Malmsbury (252 : 1).

253. CHIPPENHAM. ^a The decrease of population in the parish of Laycock is attributed to the removal of the inmates of a workhouse to Chippenham.
^b Pewsham, described as extra-parochial, is presumed to be subject to the provisions of the Act 20 Vict. c. 19.
^c For the *Borough* of Chippenham, see Part I.
^d The increase of population in the parish of Langley-Burrell is attributed to the erection of a large number of houses on that part of the parish adjoining Chippenham.

^a Old Sarum, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

^b The increase of population in Fisherton-Anger is mainly attributed to the erection of a number of houses since the opening of the Great Western and South-western Railway Stations.

^c The area of the Close of the Canons of the Cathedral Church, Salisbury, is included in that of the city parishes in Salisbury District (264). The increase of population in this liberty is attributed partly to an addition in the number of scholars at a private school, and at an institution for training schoolmistresses.

264. SALISBURY. ^d The parishes and places comprised in the Salisbury District are for purposes connected with the relief of the poor united under a Local Act, or the City of Salisbury, the parliamentary and municipal limits of which are co-extensive, see Part I.

265. WILTON. ^e The increase of population in the parish of Fugglestone St. Peter is attributed to the manor lands of the tything of Bemerton having within the last few years been sold in divided lots. Houses were consequently built which, from their convenient situation between Salisbury and Wilton, were quickly tenanted.

^f Wilton is a corporate town, but is not regulated by the Municipal Corporation Act. For the Parliamentary Borough, see Part I.

^g The decrease of population in the parish of Stapleford is attributed to the discontinuance of road traffic, consequent on the facilities of railway communication.

^h The area of Dinton parish includes that of Teffont Magna parish (266 : 3).

ⁱ The decrease of population in the parish of Barford St. Martin is attributed to emigration, and to the removal of several families to other parishes.

^k Groveley Wood, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19.

266. TISBURY. ¹ The other part of the parish of Tollard Royal, viz. Farnham Tollard tything, is in the Wimbome District (271).

^m The decrease of population in the parishes of Donhead St. Mary and Anstey is attributed to emigration and to the removal of several families to other parishes.

ⁿ The decrease of population in the parish of Hindon is attributed to migration, caused by a scarcity of employment.

^a BLANDFORD. The principal part of Bere-Regis is in Wareham District (2), with which the area of Milborne-Stileham hamlet is returned. The decrease of population in the parish of Winterborne-Zelstone is attributed to the removal of families. For the Borough of Blandford, see Part I. Hanford, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19. The decrease of population in the parish of Iwerne-Courtney is mainly attributed to emigration. The decrease of population in the parish of Tarrant-Hinton is attributed to the

destruction of several cottages by fire, which caused the occupants to settle in adjoining parishes.

^{271. WIMBORNE.} The other part of Tollard Royal parish is in Tisbury District (266).

^h West Woodyates, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19.

ⁱ The decrease of population in the parish of Wimborne St. Giles is ascribed partly to the absence of the principal family of the place, and partly to the removal of two or three other families.

^a The increase of population in the parish of Witchampton is attributed to the enlargement of a paper manufactory. The Lord of the Manor has built several cottages for the labourers and others on his estate in this parish.

^b Holt and Wimborne Minster constitute Wimborne Minster parish; the area of the entire parish is returned in the Wimborne Sub-district (271 : 3).

^c Hampreston parish includes Longham hamlet, which is not separately rated for the relief of the poor.

272. POOLE. ^d The increase of population in the parish of Canford Magna is attributed to the establishment of two potteries and of an iron foundry; and houses have

been erected for the accommodation of the persons employed at these works. [†] The entire parish of Canford Magna is comprised in Sub-districts 272 : 1 and 2.

^e For the Borough of Poole, see Part I.

^f The decrease of population in the parish of Lytchett Minster is mainly attributed to emigration. The vacated houses have been allowed to fall into decay.

273. WAREHAM. ^g The increase of population in the parish of Studland is attributed to the demand for labour in the brick and pottery trades.

^h For the Borough of Wareham, see Part I.

a The decrease of population in the parishes of Morden, Bere Regis, Aff-Puddle, and Winfrith-Newburgh is mainly attributed to emigration, and to the migration of agricultural labourers to manufacturing districts. The other part of the parish of Bere Regis, viz., Milborne Stileham hamlet, is in Blandford District (270).

274. WEYMOUTH. b Watercombe, including Dickey Banks, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

c The decrease of population in the parish of Osmington is attributed to emigration, consequent on the employment of machinery for agricultural purposes.

d The increase of population in Radipole is attributed to the extension of trade in Weymouth, and to the proximity of the parish to a railway terminus. Houses and villas have been built on the Radipole Road leading to Weymouth.

e The increase of population in Weymouth and Melcombe Regis is attributed to the extension of the Great Western and South Western Railways to the town of Weymouth; to the establishment of a regular packet service to the Channel Islands;

to the construction of Government Defence Works and of the breakwater at Port Land. A large addition has been made to the number of houses in Melcombe Regis. For the Borough of Weymouth and Melcombe Regis, see Part I.

f The decrease of population in the parish of Portisham is mainly attributed to emigration.

275. DORCHESTER. g The Dorchester District consists of two Poor Law Unions, viz., the Dorchester Union (Sub-districts 1-3) and the Cerne Union (Sub-district 4).

h The increase of population in the town of Dorchester is attributed partly to the number of military in Dorchester Barracks, and partly to the erection of cottages near the railway. For the Borough of Dorchester, see Part I.

i The decrease of population in the parish of Burlestone is mainly attributed to the junction of farms and to the pulling down of several cottages.

^a The decrease of population in the parishes constituting the Modbury Sub-district is attributed to migration to Plymouth and other places, where better wages are obtained.

^b 286. PLYMPTON ST. MARY. ^b The decline of population in the parishes in Yealampton Sub-district (Ermington excepted) is attributed to the absence of railway communication.

^c The increase of population in the parish of Ermington is attributed to the opening of railway communication.

^d The increase of population in the parish of St. Budeaux is attributed to the creation of barracks and other Government buildings.

^e Laura Green, formerly deemed extra-parochial, and returned in 1851 with the parish of Egg Buckland, has become a parish for the purposes of the Act 20 Vict. c. 19.

^f The principal part of St. Andrew parish is in Plymouth District (287).

^g The increase of population in Compton Gifford is attributed to the proximity of the tything to Plymouth.

^h The principal part of the parish of Charles-the-Martyr is in Plymouth District (287).

ⁱ 287. PLYMOUTH. ⁱ The extension of Government works and establishments has led

to a large increase of population in Plymouth. For the Borough of Plymouth, which is co-extensive with the District, see Part I.

^k 288. EAST STONEHOUSE. ^k The parish of East Stonehouse is within the parliamentary limits of the Borough of Devonport. The large increase of population is ascribed to the extension of Government establishments.

¹ 289. STOKE DAMEREL. ¹ The parish of Stoke Damerel constitutes this District. The Sub-districts of St. Aubyn, Clowance, and Morice, lying within the Government fortification lines, are now incapable of further building extension; the surplus inhabitants have consequently to seek accommodation in the Stoke and Tamar Sub-districts, where a large number of houses has been erected for their accommodation. The large increase of population in the Sub-district of Morice is attributed to the temporary presence of seven ships-of-war, on board which were several thousand seamen.

^m For the Borough of Devonport, see Part I.

ⁿ 290. TAVISTOCK. ⁿ The decrease of population in the parish of Beerferris is attributed to emigration and migration, consequent on the cessation of employment in the lead mines.

^a The decrease of population in Treneglos and Warbstow is attributed to a reduction in the demand for labour, owing partly to a large portion of the land hitherto cultivated being now used for the pasture of cattle, and partly to the introduction of improved farming implements.

^b The decrease of population in St. Stephen's parish is attributed to the cessation of employment in a small manganese mine, and to emigration.

^c The decrease of population in the parishes comprising the Sub-district of Launceston, especially in the parish of Launceston St. Mary Magdalen, is attributed partly to the stoppage of mining operations ; partly to a reduction in the demand for labour, and consequent migration, owing to the facilities of railway communication ; and partly to the introduction of machinery for agricultural purposes. For the Borough of Launceston, see Part I.

^d The return for Lezant includes 8 houses and 29 persons in the hamlet of Trewarlet, which is said to be legally attached for poor rate purposes to Lezant and South

Petherwin in alternate years. The Poor Law Board are, however, of opinion that Trewarlet should be returned as part of Lezant, with which it was enumerated at the Census, as they hold that it cannot be situated in two parishes at the same time or in alternate years.

^e 302. ST. GERMAN'S. The increase of population in the parishes of St. John, Antony and Sheviock is attributed to the temporary presence of a large number of labourers employed in the erection of forts.

^f The increase of population in Saltash Town and Chapelry (part of St. Stephen's parish) is attributed partly to the introduction of the railway, and partly to the presence of mechanics and labourers employed in erecting the Royal Albert Bridge.

^g 303. LISKEARD. The large increase of inhabited houses and population in the parishes of Linkinhorne, St. Ive, Menheniot, and St. Cleer is attributed to extensive mining operations.

^h For the Parliamentary Borough of Liskeard, see Part I.

^a The suspension of the works of several tin mines in the parish of Sancreed has caused a decrease of population.
^b The decrease of population in the parishes of this Sub-district is mainly attributed to emigration and to the removal of labourers to the mining districts. The return for Sennen parish includes the Longships Lighthouse off the Land's End.
^c Sampson Island was uninhabited at the Census of 1861.
^d 313a. WILLITON. The decrease of population in Selworthy is mainly attributed to the destruction of houses by fire.
^e The increase of population in St. Decumans is chiefly confined to that part of the

parish called Watchet, and is attributed to several hundred navvies being employed on harbour and railway works.
^f The increase of population in the parish of East Quantoxhead is partly attributed to drainage operations.
^g The decrease of population in Brompton Ralph parish is attributed to the migration of families and young persons to towns.
^h 313b. DULVERTON. The decrease of population in the parish of Skilgate is attributed to the removal of labourers into adjacent parishes.

316. BRIDGWATER. * The decrease of population in the parishes of Fiddington and Cannington is attributed to migration, consequent upon the stopping of a large steam mill.

† Part of the parish of North Petherton on the north-east side of the River Parrott is in the Middlezoey Sub-district (316: 3). The entire area is here returned.

‡ The decrease of population in the parish of Weston Zoyland is attributed to emigration.

§ The chief part of the parish of Bridgwater is separated from this portion by the River Parrott; the entire area is entered in the Bridgwater Sub-district.

¶ For the Borough of Bridgwater, see Part I.

‡ The increase of population in Wembdon is attributed to the proximity of the parish to Bridgwater.

§ The decrease of population in Chedzoy parish is attributed to the pulling down of cottages.

¶ The increase of population in Puriton parish is mainly attributed to the establishment of three cement mills.

ECCLESIASTICAL DISTRICTS.

TABLE (A.)—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

* The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has in some cases been experienced in preparing from the Census a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts New Parishes, but their absolute correctness cannot be vouched for.
The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.
Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood at date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1891, returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as is practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for the Sub-district; and the form of the return has also enabled these to be localised to their several parishes and places. Although, from the extent of many of the Ports, the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

Note.—Places marked in the Table thus * are single parishes under the Poor Law Amendment Act ; || are single parishes under Local Acts ; † are incorporations under Local Acts. Places printed in italics are under the 43d Elizabeth. The numbers here returned for the Poor Law Unions, &c. will not in all cases agree with those previously given for the Superintendent Registrars' Districts, as the latter include places (some of which were formerly, and others that are still, described as extra-parochial) which are not parts of the Union.

^a The increase of population in the parish of Charfield is attributed to the establishment of a railway station in the centre of the parish, and to the operations of a Freehold Land Society.

333. DURSLEY. ^b The decrease of population in the parishes comprising the Wotton-under-Edge Sub-district is attributed to migration, owing to a depression in the cloth manufacture.

^c The parish of Uley having passed from a manufacturing to an agricultural district, many labourers have left in search of employment, and a number of cottages have been pulled down.

^d The decrease of population in Dursley parish is attributed to the decline of the cloth manufacture; to this cause also may be assigned the general decrease of population in the parishes of Stinchcombe, Cam, and Slimbridge.

334. WESTBURY-ON-SEVERN. ^e The increase of population in Newnham parish is attributed to improvement in commerce since the opening of the railway station.

^f The increase of population in East Dean township is attributed to the opening of coal and iron mines and to the establishment of iron furnaces. The Forest of Dean, formerly extra-parochial, has been formed by the Act 5 & 6 Vict. c. 48, into two townships, viz. East Dean and West Dean. West Dean township is in the Monmouth District (577), Div. XI.

^g Causeway, Little Dean Hill, Hinders Lane, Mousel Lane, St. Whites or Whitehall, described as extra-parochial, are presumed to have been returned in East Dean township in 1851.

^h Migration of many of the labouring class to East Dean has diminished the population of the parish of Little Dean.

ⁱ Part of the parish of Churcham, viz., Highnam, Linton, and Over hamlets, are in the Gloucester District (336).

335. NEWENT. ^a The decrease of population in the parishes of Staunton, Corse, and Hartpury is attributed to labourers having left for other parts.

336. GLOUCESTER. ^b The principal part of the parish of Churcham is in Westbury-Severn District (334).

^c The decrease of population in the parish of Down Hatherley is attributed to the removal of families to other parts.

^d For other parts of the parish of St. Mary-de-Lode, see St. Nicholas Sub-district (336: 2), and South Hamlet Sub-district (336: 4).

^e Increased house accommodation, and the enlargement of the County Lunatic Asylum, are assigned as causes of the increase of population in the hamlet of Wotton St. Mary. Wotton Hill, formerly extra-parochial, has been annexed to the hamlet of Wotton St. Mary under the Act of 20 Vict. c. 19.

^f The increase of population in the parish of Barnwood is attributed to the erection of a large private Lunatic Asylum, and to additional house accommodation.

^g The Ville of Wotton, formerly described as extra-parochial, is now a parish for purposes of the Act 20 Vict. c. 19.

^h For the City of Gloucester, see Part I.

ⁱ The decrease of population in St. Nicholas and Holy Trinity parishes is mainly attributed to migration to South Hamlet, where employment in and about the docks has been readily obtained.

^k Pool Meadow, formerly deemed extra-parochial, and returned in 1851 with the parish of St. Mary-de-Lode, is now a parish for the purposes of the Act 20 Vict. c. 19.

^l For other parts of the parish of St. Mary-de-Lode, see the Kingsholm Sub-district (336: 1) and the South Hamlet Sub-district (336: 4).

^m The parish of St. Catherine is wholly comprised in Sub-districts 336: 1 and 2.

ⁿ Extension of building in the hamlet of Kingsholm St. Catherine has caused a considerable increase of population.

^o The decrease of the population in the parishes of St. Aldate, St. John the Baptist, St. Mary-de-Crypt, and St. Owen is attributable to the removal of families from the close and confined streets of these localities to the more open and healthy suburbs. A great many artisans and dock labourers have also gone to live outside the city boundaries.

^p The other part of the parish of St. Michael, viz. Barton St. Michael hamlet, is in Sub-district (336: 4).

^a The increase of population in Barton St. Michael is attributed to the proximity of the hamlet to the port of Gloucester. The other part of St. Michael's parish is in St. John the Baptist Sub-district (336 : 3).

^b Other parts of the parish of St. Mary-de-Lode are in the Kingsholm and St. Nicholas Sub-districts (336 : 1 and 2).

^c The increase of population in Barton St. Mary hamlet and Hempstead parish is mainly attributed to the residence of a large number of artisans and labourers employed in the docks. Low rents and the openness and healthiness of these localities have also attracted many families from the city.

^d In South Hamlet the increase of population is attributed to the establishment of railway waggon works, saw mills, and other manufactories.

^e Prinknash Park, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

337. WHEATENHURST. ^f The decrease in the population of Eastington tything is attributed to the depression of the woollen manufacture.

338. STROUD. ^g Haywards Field, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19.

^h For the Borough of Stroud, see Part I.

ⁱ Emigration and the demolition of old cottages are assigned as the principal causes of the decrease of population in the parish of Woodchester.

^k The decrease of population and of houses in Minchinhampton parish is attributed to the removal of families to London and other large towns. Many of the houses are uninhabitable, owing to their dilapidated condition.

^l The decrease of population in the parish of Avening is attributed to emigration and migration, consequent on the decline of the woollen trade.

^m The decrease of population in Horsley parish is attributed to emigration and migration consequent on the closing of cloth mills.

339. TETBURY. * The decrease of population in the parish of Boxwell-and-Leigh-ton is mainly attributed to a large family residence being unoccupied.
The diminished return for the parish of Oldbury-on-the-Hill is ascribed to the closing of a large boarding school.

340. CIRENCESTER. * The removal of many of the labouring class to the manufac-turing districts is assigned as the cause of the decrease of population in the parishes Brimpsfield and Duntisborne Rouse.

† The Parliamentary Borough of Cirencester is co-extensive with the parish,

* The decrease of population in Fairford parish is attributed to the conversion of a large public Lunatic Asylum into a private establishment, and the consequent removal of the pauper inmates to the County Asylum.

† The decrease of population in Hatherop parish is attributed to the removal of labourers and others, consequent upon the pulling down of dilapidated cottages.

341. NORTHLEACH. * The decrease of population in the parish of Southrop is attributed partly to the removal of a large family.

h The decrease of population in Sherborne parish is attributed to the establish-ment of a system which permits but one family to reside in each cottage.

^a The parish of Bibury is wholly comprised in Sub-districts 341: 1 and 2.
^b The decrease of population in the parish of Coln-Rogers is attributed to the removal of the residents of a mansion, and likewise to the temporary absence of a large family.

342. STOW-ON-THE-WOLD. ^c The decrease of population in several of the parishes of this District is attributed to the migration of families to other parts.

^d The increase of population in the parish of Daylesford is attributed to additional cottage accommodation.

^e The decrease of population in the parish of Stow-on-the-Wold is attributed to migration of the labouring class to large towns, consequent on the lowness of wages.

343. WINCHCOMB. ^f The principal part of Bredon parish is in the Tewkesbury District (see 345: 2).

^g The township of Pinnock and Hyde is mostly in Didbrook parish, where its area is wholly returned.

^a Pinnock and Hyde form a township maintaining its own poor; Pinnock is part of Didbrook parish, and Hyde is said to be part of Temple Guiting parish. The entire township of Pinnock and Hyde contained 50 persons in 1861.

^b Migration of the labouring class in search of employment is assigned as the cause of the decrease of the population in Snowshill parish.

^a Part of the parish of Overbury, consisting of the hamlets of Little Washbourne and Alstone, is in the Winchcomb District (see 343 : 2).^b Cutsdean chapelry, in the parish of Bredon, is in the Winchcomb District (see 343 : 1). The decrease of population in Bredon and Norton is attributed to the removal of a large family, and to the migration of labourers to other districts in search of employment.^c The borough of Tewkesbury is co-extensive with the parish.346. LEDBURY. ^d The increase of population in Colwall and Ledbury parishes is attributed to the temporary employment of labourers on the Worcester and Here-

ford Railway works. Ledbury and Parkhold (Sub-districts 346 : 1 and 2) constitute the parish of Ledbury.

^e The principal part of Bishops Frome parish is in the Bromyard District (see 350 : 2).^f Much Marcle and Yatton (see 347 : 1) constitute the parish of Much Marcle.^g The decrease of population in Woolhope parish is mainly attributed to the removal of dilapidated cottages.347. ROSS. ^h The increase in the population of Kings Caple is attributed to the employment of labourers on railway works.

^d The principal part of Newland parish is in Monmouth District (577), Div. XI.

^e 348. HEREFORD. ^e The Hereford District comprises the two Poor Law Unions of Hereford and Dore. The parishes and places included in Sub-districts 348: 1-4 form the Hereford Union; Sub-districts 348: 5-7 form the Dore Union.

^f Haywood, formerly extra-parochial, has now become a parish for the purposes of the Act of 20 Viet. c. 19.

^g The parish of St. Martin Hereford is chiefly in Hereford City Sub-district (348: 4). Lower Bullingham, described in 1851 as a township of St. Martin, is now said to be a separate parish.

^h The Vineyard, consisting of 1 house (containing 5 persons) and about 6 acres of land, is described as extra-parochial. It is included in Tupsley township in the return for 1861.

^a Marden parish is wholly comprised in Sub-districts 348 : 2 and 3.

^b The decrease of population in the parish of Wellington is attributed to the introduction of machinery for agricultural purposes.

^c Dinmore, formerly extra-parochial, has now become a parish for the purposes of the Act of 20 Vict. c. 19.

^d The increase of population in Holmer parish is mainly attributed to the operations of a Freehold Land Society.

^e For the City of Hereford, see Part I.

^f The increase of population in the parish of All Saints, and generally throughout the parishes of this Sub-district, is mainly attributed to the opening of the West Midland Railway and the establishment of workshops. A Freehold Land and Building Society has also been established, and many houses have been erected upon its allotments.

^g The other part of St. Martin's parish is in the Dewchurch Sub-district (348 : 1).

^h The apparent decrease of population in Kingstone parish is accounted for by the fact that a number of labourers were temporarily employed in 1851 in cutting timber.

349. WEOBLY. * The increase of population in the parish of Staunton-upon-Wye is attributed to the presence of a large number of labourers employed in the erection of houses.

† The decrease of population in the parish of Weobly is owing to the removal of labourers to other parts.

‡ The increase of population in Yazor parish is attributed to the erection of labourers' cottages, and to the employment afforded on a railway in course of construction.

350. BROMYARD. ^d Part of Bromyard parish is in Brockhampton Sub-district (350: 3).

^e The decrease of population in Winslow and Ullingswick is attributed to changes of residence amongst farmers, and to the migration of labourers in search of employment.

^f The temporary presence of labourers employed on the railway works at Hereford has occasioned an increase of population in Ocle-Pitchard parish. Livers Ocle, formerly extra-parochial, containing 16 inhabitants in 1861, has been annexed to Ocle-Pitchard parish under the Act of 20 Vict. c. 19.

^g The other part of Bishops Frome parish, viz. Eggleton township, is in the Ledbury District (346).

^h The other part of Bromyard parish is in the Bromyard Sub-district (350: 1).

ⁱ Saltmarsh, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

^k The principal part of Bockleton parish is in the Tenbury District (see 385: 2).

NOTE.—As the Enumeration of 1851 was made with reference to the persons who slept or abode in each house on the night of March 30th, on which day Mid-Lent Sunday happened to fall, many persons were absent from their homes in various parishes in Shropshire visiting their parents and relations, according to a custom which prevails in some parts of this and the neighbouring counties. The day is commonly known as "Mothering Sunday" in the localities in which this custom is observed.

351. LEOMINSTER. ^a New Hampton, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

^b The increase in the population of Laysters parish is mainly attributable to the opening of a brickyard.

^c The Borough of Leominster is co-extensive with the parish. The in-parish is divided into six wards; the out-parish is in the Bodenham Sub-district (351: 2).

^d Hampton Wafer, formerly extra-parochial, is now a parish for the purposes of the Act of 20 Vict. c. 19.

^e Newton and Croft constitute the parish of Croft.

352. LUDLOW. ^f The part of the parish of Leintwardine in this Sub-district consists of Leintwardine north-side; the rest of the parish is in the Knighton District (604), Div. XI. The area here given is that of the entire parish.

^g Part of Bromfield parish, viz. Halford chapelry, is in Diddlebury Sub-district (352: 5).

For the Borough of Ludlow, see Part I. Ludlow Castle, formerly described as extra-parochial, and returned with St. Lawrence in 1851, is now a parish for the purposes of the Act 20 Vict. c. 19.

The decrease of population in the parishes of Cainham and Bitterley is attributed to the stoppage of iron-works, and to the cessation of labour at a coal-field.

The decrease of population in the parishes of Tugford and Munslow is attributed to the removal of dilapidated cottages, and to a reduction in the number of families in the house.

The decrease of population in Diddlebury parish is attributed to a reduction of establishment at Diddlebury Hall, and to the removal of dilapidated cottages.

The Skirmage, described as extra-parochial, consisting of half an acre of land with

one dwelling on it, is presumed to have become subject to the provisions of the Act 20 Vict. c. 19.

^f The other part of Bromfield parish is in Ludlow Sub-district (352: 2).

353. CLUN. ^g The decrease of population in Hopton Castle parish is attributed to the pulling down of some cottages.

^h The increase of population in the parish of Clun is attributed to the inclosure of a large tract of land for the erection of houses.

ⁱ The other part of the parish of Mainstone, called Castle Wright township, is in the Montgomery District (608), Div. XI.

^k The other part of Lydham parish, viz. Aston township, is in Montgomeryshire, and in the Montgomery District (608), Div. XI.

^a Hill End, Old Church Moor, Horderly Hall, and Dinmore, formerly extra-parochial, have become parishes for the purposes of the Act 20 Vict. c. 19. Old Church Moor, consisting of 75 acres (part of a farm), and Hill End, are said to have contained neither houses nor inhabitants when the Census was taken.

354. CHURCH STRETTON. ^b The decrease of population in the parishes of Smethcott and Longnor is attributed to a reduction in the number of persons employed in a colliery, and to the completion of the railway.

355. CLEOBURY MORTIMER. ^c Woodhouse, formerly deemed extra-parochial, is now a parish for the purposes of the Act 20 Vict. c. 19.

^d Chetton parish is chiefly in the Bridgnorth District (see 356: 1).

^e The increase of population in the parish of Highley is attributed to the temporary presence of a number of labourers employed on railway works.

356. BRIDGNORTH. ^f The decrease of population in Eardington township is attributed to the stoppage of coal and brick works. The remainder of Quatford parish is in Bridgnorth Sub-district (356: 2).

^g The decrease of population in North Cleobury parish is attributed to the stoppage of lime-works.

* The other part of Chetton Parish, viz. Loughton chapelry, is in the Clebury former District (355).

b The increase of population in the parish of Oldbury is attributed to the operations of a Freehold Land Society.

c For the Borough of Bridgnorth, see Part I.

d The other part of Quatford parish, viz. Eardington township, is in the Chetton sub-district (356: 1).

e The increase of population in the parish of Quatt is attributed partly to an addi-

tion to the number of children in the South-east Shropshire District School, and partly to the re-opening of some iron-works.

357. SHIFFNAL. f Boscobel, formerly extra-parochial, has now become a parish for the purposes of the Act of 20 Vict. c. 19.

g Part of the parish of Sheriff-Hales, consisting of the chapelry of Woodcote, is in the Newport District (366). The entire township of Sheriff-Hales contained 816 persons in 1861.

359. ATCHAM. ^a The increase of population in Shinerton parish is attributed to the temporary presence of labourers employed on the Severn Valley Railway works.
^b The decrease of population in the parish of Habberley is attributed partly to the migration of young persons.
^c Part of Alberbury parish, consisting of the townships of Uppington and Middle-town, is in the Montgomery District (608), Div. XI.
^d The increase of population in Preston Gubbals parish is attributed mainly to the establishment of a railway goods station, and to the erection of houses in the hamlet of Bomere Heath.
^e Other parts of the parish of St. Mary are in Districts 360 and 363a.
^f Haughmond Demesne, formerly extra-parochial, has now become a parish for the purposes of the Act 20 Vict. c. 19.

360. SHREWSBURY. ^g The parishes comprised in the Shrewsbury District form the Shrewsbury Incorporation, which for purposes connected with the relief of the poor is regulated under a Local Act. For the *Borough* of Shrewsbury, see Part I.
^h The increase of population in the parishes of St. Julian and St. Mary is attributed to the operations of building societies, and to the opening of the railway to Shrewsbury. The chapelries of Albrighton and Astley in Atcham District (359), and Clive chapelry in Wem District (363 A.), are members of St. Mary parish.
ⁱ The decrease of population in St. Alkmund parish is attributed to the demolition of houses, partly to make room for the erection of waterworks, and partly for the railway.

365. WELLINGTON. a The large increase of population in the parish of Wellington is attributed to the establishment of iron-foundries, timber-yards, and saw-mills, and to the extension of railway communication.
b The increase of population in Wrockwardine-Wood township, and in the parishes of Wombridge and Eyton-upon-the-Wild-Moors, is attributed partly to the erection of new workshops and forges for the manufacture of bar iron, which is extensively carried on in this locality, and partly to the facilities afforded for purchasing land for building purposes.
366. NEWPORT. c The parish of Sheriff-Hales is chiefly in the Shifnal District (57 : 2).
d The decrease of population in the parish of Gnosall is attributed partly to the removal of the inmates of the workhouse to Newport, partly to the fact that labourers were temporarily employed in 1851 on railway works, and partly to the dilapidated condition of cottages.
367. STAFFORD. e Ranton Abbey, Worston, Cresswell, Tillington, and Yarlett, formerly extra-parochial, have become parishes for the purposes of the Act 20 Vict. c. 19.
f For the Borough of Stafford, see Part I.
g The increase of population in Marston is attributed to the erection of a number of houses in that part of the township which adjoins the town of Stafford.
h The large increase of population in Hopton and Coton township is attributed to the enlargement of the County Lunatic Asylum, and to the erection of the Coton Hill Lunatic Asylum.

^a NEWCASTLE-UNDER-LYME. ^a The increase of population in Chorlton is attributed to the residence of labourers from Maer parish, where a want of cottage accommodation exists. The principal part of Eccleshall parish is in Eccleshall Sub-district (368 : 2).

For the Borough of Newcastle-under-Lyme, see Part I.
Other parts of Barthomley parish are in Congleton District (457) and in Nantwich District (458), Div. VIII.

^b The increase of population in Talk-o'-th'-Hill, Audley, Bignall-End, and Halmer-End is attributed to the extension of coal-mining and iron manufacture.

^c WOLSTANTON. ^c The whole of the parish of Wolstanton is comprised in the Wolstanton and Tunstall Sub-districts.

^d The increase of population in the townships of Chesterton, Knutton, and Chatterly is attributed to the establishment of new iron-works.

^e The increase of population in Wolstanton township is attributed to the extension of the earthenware trade in the vicinity.

^h The large increase of population in the townships comprising the Tunstall Sub-district, and especially in the township of Wedgwood, is attributed to the erection of blast furnaces and iron-works, and to the extension of the pottery trade.

ⁱ The return in 1861 for Burslem township includes 114 persons in canal boats.

371. STOKE-UPON-TRENT. ^k The District of Stoke-upon-Trent consists of the entire parish of that name. For the *Parliamentary Borough* of Stoke-upon-Trent, see Part I.

^l The increase of population in Hanley township is attributed to the opening of coal and ironstone mines, and to the establishment of blast furnaces, forges, &c. The other part of the Borough of Hanley is in Shelton Sub-district (371 : 2). For the *Municipal Borough* of Hanley (which comprises the whole of Hanley township and part of Shelton township), see Part I.

373. CHEADLE. * The decrease of population in the township of Upper and Lower Coton is attributed to migration into the neighbouring ironstone districts. The increase of population in Kingsley and Ipstones parishes is attributed to the extension of ironstone mining operations. Foxt hamlet is partly in Ipstones parish and partly in Checkley parish; it is not separately rated for the relief of the poor. The parish of Checkley is mostly in Cheadle Sub-district (373 : 4). The decrease of population in the parish of Draycott-in-the-Moors is attributed to migration, owing to the introduction of machinery for agricultural purposes.

374. UTTOXETER. ^c In the parish of Leigh labourers were employed in 1851 on railway works.

^f The decrease of population in Newton Liberty is attributed to a reduction in the number of agricultural labourers, and to the temporary absence of one of the principal families.

[§] Parts of Hanbury parish are in Sub-districts 374 : 2-3, and in Burton-upon-Trent District (375).

383. STOURBRIDGE. * The other parts of Halesowen parish are in Sub-districts 1 : 2 and 392 : 2.
† The increase of population in the townships of Cradley, Hasbury, Hill, and Halesowen is attributed to the extension of the iron manufacture.
‡ The decrease of population in the township of Lapal is attributed to the decay of cottages and to scarcity of employment, the township being, exclusively, agricultural.
§ The increase of population in The Lye township is attributed to the extension of iron, crucible, and Stourbridge firebrick manufactures.
|| The increase of population in Wollaston township and Amblecoat hamlet is attributed partly to the extension of the glass manufacture, and partly to the operations of Land Societies.
¶ The increase of population in Kingswinford parish is attributed to the opening of coal and ironstone mines and the erection of iron furnaces to the extension

of the flint glass manufacture, to the opening of the West Midland Railway, and to the operations of Building Societies.
384. KIDDERMINSTER. * The decrease of population in Rushock parish is partly attributed to a reduction in the number of persons to a house.
† The decrease of population in Broom parish is attributed to the migration of young persons.
‡ The increase of population in the parish of Wolverley is attributed to the extension of iron manufacture.
§ The decrease of population in Kidderminster Old Borough is mainly attributed to the substitution of steam for hand power in wool spinning and carpet weaving. For the Borough of Kidderminster, see Part I.
¶ The increase of population in Upper Arley parish is partly attributed to the temporary presence of a number of labourers employed on an estate and on railway works, and partly to an extension of the pottery manufacture.
|| For the Parliamentary Borough of Bewdley, see Part I.

^a The principal part of the parish of St. Peter Worcester is in the Worcester District (see 387: 3).

^b The decrease of population in Spetchley parish is attributed to a reduction in the number of persons employed at the railway station, and to the removal of labourers employed in 1851 on buildings.

^c The parish of Fladbury is wholly comprised in Evesham, Pershore, and Droitwich Districts (389-391).

^d Shell, formerly extra-parochial, is now a parish for the purposes of the Act 20 Vict. c. 19.

^e The increase of population in that part of Claines parish in the Droitwich Dis-

trict is attributed to the opening of the Worcester Railway Station, part of which is situate in this parish. The area assigned to Claines includes that of the other part of the parish, viz.: Whiston's tything (see 387: 2).

^f The decrease of population in Elmley Lovett parish is attributed to the removal of labourers employed in 1851 on railway works.

^g Westwood Park, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19.

^h For the Borough of Droitwich, see Part I.

ⁱ Malborough-in-the-Vines, Grafton-Manor, and Crutch, formerly extra-parochial, are now parishes for the purposes of the Act 20 Vict. c. 19.

392. BROMSGROVE. ^a Other parts of Halesowen parish are in West Bromwich and Stourbridge Districts (381 and 383).

393. KINGS NORTON. ^b The increase of population in Harborne is attributed to the proximity of the parish to the town of Birmingham.

394. BIRMINGHAM. ^c For the *Borough* of Birmingham, see Part I.

^d The large increase of population in the Sub-districts of Lady Wood, St. Thomas, St. Martin, and St. George is mainly attributed to the general extension of the trade of the town, to the establishment of railway stations and works, and to the erection of warehouses, manufactories, and dwelling-houses.

^e The decrease of population in the Sub-districts of St. Philip, St. Paul, and St. Mary is mainly attributed to the demolition of houses for the purpose of erecting a railway station, warehouses, and other large establishments. The inmates of the Workhouse have also been removed from St. Mary's Sub-district to that of All Saints.

395. ASTON. ^f The increase of population in Aston District is attributable to the extension of the town of Birmingham, and to the operations of Land and Building Societies. The entire parish of Aston is comprised in Sub-districts 395:1-3.

^a The increase of population in Aston District is attributable to the extension of the town of Birmingham, and to the operations of Land and Building Societies. The entire parish of Aston is comprised in Sub-districts 395 : 1-3.

396. MERIDEN. ^b The decrease of population in most of the parishes comprising the sub-district of Coleshill is attributed to migration to Birmingham and other manufacturing towns.

^c Shustoke and Bentley hamlet (see 397 : 1) constitute the parish of Shustoke.

^d The increase of population in Coleshill parish is attributed to the establishment of gas-works in the town, to improvements in farming operations, and to the extension of brick and drain-pipe manufacture.

^e The parish of Hampton-in-Arden is wholly comprised in Districts 395 and 402.

^f Other parts of the parish of Trinity Coventry are in Foleshill and Coventry Districts (see 399 : 2 and 400 : 2).

398. NUNEATON. ^a The decrease of population in the parishes of Nuneaton and Bulkington is attributed to the depressed state of the ribbon trade.

399. FOLESHILL. ^b The principal part of St. Michael parish is in Coventry District (see 400 : 1).

^c Other parts of the parish of Holy Trinity Coventry are in Meriden and Coventry Districts (see 396 : 2, and 400 : 2).

400. COVENTRY. ^d The increase of population in the Coventry District would have been larger but for the depression in the ribbon and watch manufactures, to which cause the unusually large number of uninhabited houses is also attributable. The places constituting the Coventry District are united for the support of the poor under a Local Act.

^e For the Borough of Coventry, see Part I.

^f Part of the parish of St. Michael, viz., Keresley hamlet, is in the Foleshill District (399 : 1).

^g Parts of Holy Trinity parish are in Meriden and Foleshill Districts (396 and 399).
401. RUGBY. ^h The principal part of Monks Kirby parish is in Lutterworth District (408), Div. VII.

ⁱ The decrease of population in Harborough Magna parish is mainly attributed to the removal of a preparatory school.

^k With the exception of Brownsover township or chapelry, the parish of Clifton-on-Dunsmore is in Sub-district 401 : 2.

^l The increase of population in Rugby parish is attributed to an addition in the number of servants and others connected with the railway, and to the residence of families in the parish for the purpose of having their sons educated at Rugby School.

^m The increase of population in Bilton is partly attributable to the proximity of the parish to Rugby, and partly to the establishment of a large school.

^a For the Borough of Warwick, see Part I.
^b The decrease of population in the parish of St. Mary is attributed partly to the removal of labourers employed in 1851 on the Oxford and Birmingham Railway, and County Lunatic Asylum, situate in the parish of Hatton, and partly to the closing of a hat manufactory.
^c Guy's Cliffe, formerly extra-parochial, is now a parish for the purposes of the Act 20 Vict. c. 19.
^d The decrease of population in Hunningham parish is attributed mainly to the discontinuance of a Lunatic Asylum.
^e The increase of population in Lillington parish is attributed to additional house accommodation.

404. STRATFORD-ON-AVON. ^f The increase of population in Compton Verney parish is attributed to an addition in the establishment of one of the principal families, and to the erection of a new farm-house.
^g The part of Old Stratford parish without the Borough is in Sub-district 404: 4 where the area of the entire parish is returned. The parish is wholly comprised in Sub-districts 404: 3 and 4 and in District 402.
^h The decrease of population in Preston-on-Stour parish is attributed to the removal of dilapidated cottages, and to a reduction in the number of families to house.

^a The decrease of population in the parishes of Shipston-on-Stour and Honington is attributed to migration.

407. SOUTHAM. ^b Chapel Ascote, Upper and Lower Hodnel, and Upper and Lower Radbourn, formerly extra-parochial, have now become parishes for the purposes of the Act 20 Vict. c. 19.

^c The increase of population in Stockton parish is attributed to the establishment of a cement manufactory.

^d Watergall, described as extra-parochial, is presumed to be subject to the provisions of the Act 20 Vict. c. 19.

^e The decrease of population in Fenny Compton parish is attributed to the removal of labourers who were employed in 1851 on railway works.

^f The decrease of population in Burton Dassett parish is attributed to emigration.

^g Stoneton, formerly extra-parochial, is now a parish for the purposes of the Act 20 Vict. c. 19.

ECCLESIASTICAL DISTRICTS.

TABLE (A).—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

*** The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has in some cases been experienced in preparing from the Census returns a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts and New Parishes, but their absolute correctness cannot be vouched for.
The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.
Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood at the date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1861 returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as is practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for each sub-district; and the form of the return has also enabled these to be localised to their several parishes and places. Although, from the extent of many of the Ports, and the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

NOTE.—The new District Parishes and Ecclesiastical Districts formed under the authority of various Acts of Parliament will be found returned in a supplement to Table (A.) at the end of the return of population, &c. in parishes.

The letter (W) denotes that a Workhouse is situate within the limits of the parish or place, and included in the return. A Table showing the number of persons in principal Public Institutions in each District will be found at the end of the Division; see Table (B.)

Persons on board vessels on the night of April 7th, 1861, are returned with the general population; for details, see Table (C.)

The names of places printed in capitals (thus, LUTTERWORTH) are those of parishes which contain Towns of the same name; Cities and Boroughs are distinguished in the same manner. A detailed statement of the population of the Cities, Boroughs, and Towns of upwards of 2,000 inhabitants is given under the respective Counties in Part I. of the Census of 1861.

Where the name of the Registration or Union County in which a parish or place is returned is different from that of the county proper to which it belongs, the latter is stated in italics.

The AREAS of parishes and places are reprinted from the Census Tables of 1851; the quantities distinguished by a different type (thus, 970, Wiley) were assigned to parishes and places by the late Mr. Rickman in the Enumeration Abstract for 1831; in these cases the records in the custody of the Tithe Commissioners did not support the means of arriving at a more accurate result. The Areas marked thus (w) include Water or Sea Coast; for details, see Table (D.)

408. LUTTERWORTH. * Part of the parish of Monks Kirby is in the Rugby District (401), Div. VI.

† The township of Wibtoft is said to extend into Monks Kirby parish, but is wholly returned here.

‡ Part of Knaptoft parish, viz., Mowsley chapelry, is in the Market Harborough District (409).

^a For other parts of Rothley parish, see the Barrow-upon-Sear District (416) and the Melton Mowbray District (418).

411, BLABY. ^b The increase of population in Knighton is attributed to the proximity of the chapelry to the borough of Leicester. The other portion of the parish of St. Margaret is in the Leicester District (417).

^c The decrease of population in this part of Aylestone parish is attributed partly

to the want of sufficient cottage accommodation. The parish of Aylestone is wholly comprised in Sub-districts 411: 1 and 2.

^d The decrease of population in Narborough is attributed partly to the discontinuance of a boarding school.

^e Braunstone Frith, formerly described as extra-parochial, and returned with Braunstone chapelry in 1851, is now a parish for the purposes of the Act 20 Vict. c. 19.

* Kirby-Frith, Glenfield-Frith, and West Leicester Forest, formerly extra-parochial, are now parishes for the purposes of the Act 20 Vict. c. 19.

^b The decrease of population in Thurlaston parish is attributed to the removal of families to Leicester to work at a shoe manufactory.

^c Knoll and Bassett-House, formerly extra-parochial, now form a parish for the purposes of the Act 20 Vict. c. 19. The area is returned with that of Peckleton parish (413:1).

^d Barwell parish is wholly comprised in Sub-districts 411:2, 412:3, and 413:1.

412. HINCKLEY. ^e The decrease of population in the parishes of Stoney Stanton, Sapcote, and Burton-Hastings is attributed partly to migration to the manufacturing towns, and partly to emigration.

^f Hinckley parish is wholly comprised in Sub-districts 412:2 and 413:1. Hinckley

township, for poor rate purposes, includes Hydes Pastures and Wykin Hamlets, containing 646 persons in 1861.

^g The decrease of population in Earl Shilton chapelry is attributed to migration, owing to the introduction of machinery in the stocking manufacture. The other portion of Kirkby Mallory parish is in Market Bosworth District (413:1).

413. MARKET BOSWORTH. ^h The parish of Kirkby-Mallory is wholly comprised in Sub-districts 412:3 and 413:1.

ⁱ The area of Peckleton parish includes that of Knoll and Bassett-House (see 411:2).

^k Osbaston township is said to extend into Market Bosworth parish, but is wholly returned here.

^l Part of Market Bosworth parish, viz. Barlestone chapelry, is in Sub-district 413:2.

a The decrease of population in Donington parish is attributed to the emigration of agricultural labourers, owing to want of employment.
b The other parts of Cowbit and Spalding parishes are in Pinchbeck Sub-district (423 : 1).
c The area of this part of Pinchbeck parish is returned with that of the principal part of the parish in the Pinchbeck Sub-district (423 : 1).

424. HOLBEACH. d The part of the parish of Holbeach in the Gedney Hill Sub-district is that lying southward of the South Holland main drain. The principal parts of the parishes of Whaplode, Holbeach, and Fleet are in Holbeach Sub-district (424 : 3), where the entire areas are returned.
e The decrease of population in this part of Gedney parish is mainly attributed to migration, owing to the removal of several dilapidated cottages. The area of Gedney parish is returned with the other portion of the parish (being that lying on the common marsh) in the Long Sutton Sub-district (424 : 2).
f Other parts of the parish of Long Sutton, viz., Sutton St. Mary and Sutton St. Nicholas or Lutton Bourne hamlets, and those parts of the hamlets of Sutton St. James and Sutton St. Edmunds which adjoin Sutton St. Mary's Great Common

east of the Old Roman Bank, are in the Long Sutton Sub-district, where the entire area of the parish is returned.
g The decrease of population in the parish of Tydd St. Mary is partly attributable to a reduction in the number of persons to a family, and partly to emigration.
h These places, described as extra-parochial, consist of land reclaimed from the sea. Other parts of Wingland adjoining Whaplode St. Peter, and Terrington St. Clement, are in the Wisbech District (193), Div. III.
hh For the other parts of the parishes of Long Sutton and Gedney, see Sub-district 424 : 1.
i Parts of the parishes of Fleet, Holbeach, and Whaplode are in the Gedney Hill Sub-district (424 : 1).
425. BOSTON. k The parishes of Fosdyke and Algarkirk are here returned exclusive of their fen allotments, which are in the Swineshead Sub-district (425 : 5).
l The decrease of population in this part of Sutton parish is attributed to emigration. The fen allotments of this parish are in Swineshead Sub-district (425 : 5).
m The other part of Kirton parish is in Swineshead Sub-district (425 : 5).
n Simon Weir, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19.

* Temple Bruer with Temple High Grange, and Haverholme Priory, formerly extra-parochial, have become parishes for the purposes of the Act 20 Vict. c. 19.

† The principal part of Haydor parish is in Grantham District (427 : 3).

bb Leadenham includes a place called Maiden House, which has been annexed to this parish under the provisions of the Act 20 Vict. c. 19.

c Bayards Leap, formerly extra-parochial, and returned with Leadenham parish in 1851, is now a parish for the purposes of the Act 20 Vict. c. 19.

d The increase of population in South Rauceby parish is attributed to improved cottage accommodation.

e The increase of population in Wilsford parish is attributed to the residence of labourers employed in the Aneaster stone quarries.

f The decrease of population in South Kyme township is attributed to emigration. The other part of the parish, viz., North Kyme township, is in Sub-district 426 : 1.

430. SPILSBY. ^a The decrease of population in the parishes of East Kirkby, Stickford, and Stickney is attributed to emigration.

^b The decrease of population in most of the parishes comprising the Spilsby Sub-district is attributed partly to migration to large manufacturing towns, and partly to emigration.

^c The decrease of population in the parish of Orby is mainly attributed to emigration, owing to the introduction of machinery for agricultural purposes.

^d The increase of population in Alford parish is attributed to the operations of existing settlement laws, and of Building Societies.

431. LOUTH. ^a Haugh and East Wykeham, formerly extra-parochial, are now parishes for the purposes of the Act 20 Vict. c. 19.

^b The increase of population in the parishes of Trusthorpe, Maltby-le-Marsh, and Mablethorpe St. Mary is attributed to the sale of land for building purposes, and to the last-mentioned parish being resorted to as a watering-place.

^c The increase of population in South Reston is mainly attributed to the establishment of a brick and tile manufactory in the parish.

^d The increase of population in Utterby and South Elkington parishes is mainly attributed to the erection of cottages for labourers employed in adjacent villages.

^e Grimblethorpe, formerly extra-parochial, has become a parish for the purposes of Act 20 Vict. c. 19.

^a The increase of population in the parishes of Saltfleetby St. Peter and Grainthorpe is attributed to the sale of land in small freehold lots for the erection of houses.

432. CAISTOR. ^b The increase of population in Clee is attributed to the proximity of the parish to the docks and railway at Great Grimsby, and to a part of the parish called Cleethorpe (or Clee Thorpes) being resorted to as a watering-place.

^c The increase of population in Great Grimsby parish is mainly attributed to the opening of the docks, to the facility of railway communication, and to the extension of the fishing trade. For the Borough of Great Grimsby, see Part I. The return includes 408 persons on board vessels.

^d The decrease of population in the parish of Stallingborough is attributed to migration.

^e Broeklesby includes places called Newsham, Newsham Booth, Nun Cotham, and Newsham Abbey Marshes, which have been annexed to this parish under the provisions of the Act 20 Viet. c. 19.

* Stainton-le-Vale includes a place called Orford, which has been annexed to this parish under the provisions of the Act 20 Vict. c. 19.

† The increase of population in the parish of Market Rasen is attributed to the erection of a steam saw-mill, and to the extension of brickmaking and malting.

‡ The increase of population in North Owersby is attributed to the erection of cottages for labourers employed in the parish, who had formerly to reside in adjacent parishes.

433. GLANFORD BRIGG. ^a Newstead, formerly extra-parochial, is now a parish for the purposes of Act 20 Vict. c. 19.

^b The increase of population in Wrawby township is attributed to the removal of persons from Glanford Brigg, owing to insufficient house accommodation and high rates; hence the decrease of population in the latter township.

^c The increase of population in Appleby township is mainly attributed to the temporary employment of labourers on railway works.

^a The decrease of population in the townships of West Stockwith and Gainsborough is attributed to the migration of watermen and ropemakers, owing to the facilities of railway communication.

^b The Paddocks, described as extra-parochial, are without houses and inhabitants.

435. EAST RETFORD. ^c The decrease of population in Everton township and Mattersey parish is mainly attributed to the migration of labourers to Sheffield and other towns. Everton and Harwell form one township for poor rate purposes, containing 732 persons in 1861.

* The parish of Blyth is wholly comprised in the Districts of East Retford (435), Worksop (436), and Doncaster (510, Div. IX.) The area of that part of the parish in District 435 is returned with the area of that part of the parish in District 436.

^b The decrease of population in Sturton parish is attributed to migration.

^c The principal part of the parish of East Retford is in East Retford Sub-district (435 : 3). The area of Chapelgate, which is a hamlet in the borough of East Retford, is returned with that of the principal part of the parish.

^d South Leverton and Cottam constitute South Leverton parish.

^e For the *Borough* of East Retford, see Part I.

^f The increase of population in Ordsall is attributed partly to the establishment of two railway stations in the parish, and partly to the operations of Land Societies.

^g The decrease of population in the parishes of Askham, Tuxford, and East Markham is attributed to the removal of labourers employed in 1851 on railway works.

^h The other part of Marnham parish, viz., Grassthorpe township, is in the Southwell District (441).

436. WORKSOP. ⁱ The increase of population in the parish of Worksop is attributed partly to the opening of a coal mine, and partly to the extension of the malting and timber trades.

^k Welbeck, formerly deemed extra-parochial, has become a parish for the purpose of the Act 20 Vict. c. 19. The decrease of population in Welbeck is attributed to the changes which have been made on the estate of the Duke of Portland.

^l Wallingwells, formerly deemed extra-parochial, has now become a parish for the purposes of the Act 20 Vict. c. 19.

440. NOTTINGHAM. ^a The entire parishes of St. Mary, St. Peter, and St. Nicholas are comprised in the Nottingham District. The increase of population in St. Mary's parish is attributed to the inclosure of a large quantity of land, upon which a number of houses have been erected. The decrease of population in St. Peter's parish is mainly attributed to removals to new houses in other districts, and to the conversion of houses into places of business. Standard Hill and limits of the Castle of Nottingham, formerly deemed extra-parochial, are now a parish for the purposes of the Act 20 Viet. c. 19. For the *Borough* of Nottingham, see Part I.

441. SOUTHWELL. ^b The principal part of Burton-Joyce parish is in Basford District (438 : 6).
^c The decrease of population in the parishes of Syerston, East Stoke, and Oxton is attributed partly to the removal of families into the manufacturing districts, and partly to emigration.
^d Elston parish and Elston chapelry form one assessment for poor rate purposes. The area of Elston chapelry is returned with that of Elston parish.
^e Park Leys, formerly extra-parochial, has become a parish for the purposes of Act 20 Viet. c. 19.

^h The parish of Crich extends into the Chesterfield and Bakewell Districts (see 448: 1 and 449: 2).

^a The parish of Hartington extends into the Bakewell and Chapel-en-le-Frith Districts (see 449 : 1 and 450 : 1).

^b The decrease of population in Nether-Quarter township is attributed to the removal of workmen who were employed in 1851 on buildings.

^c The area of Ballidon is included with that of the part of Bradbourne parish in Brassington Sub-district (447 : 6).

^d Bradbourne parish is wholly comprised in Sub-districts 447 : 3-6, and in the Bakewell District (see 449 : 2). For the totals of the entire parish, see preceding page.

^e The decrease of population in Kirk-Ireton township is attributed to the migration of agricultural labourers into the mining districts. The other part of Kirk-Ireton parish is in the Belper District (446 : 6).

^f Parts of Wirksworth parish are also in the Belper and Bakewell Districts (see 446 : 6 and 449 : 2), and in the Brailsford Sub-district (447 : 1).

^g Hopton includes a place called Griff Grange, which has been annexed to this township under the provisions of the Act 20 Vict. c. 19.

^h The decrease of population in Bonsall parish is attributed to migration, owing to the depression of stocking frame knitting.

448. CHESTERFIELD. ⁱ The other part of Ashover parish is in the Belper District (446 : 6).

ⁱ The parish of Crich extends into the Belper and Bakewell Districts (see 446 : 4 and 449 : 2).

^k The increase of population in Shirland and Morton townships is attributed to the temporary presence of a number of labourers employed on railway works.

^l The decrease of population in Higham hamlet is attributed to the migration of frame-work knitters.

^m The decrease of population in Brackenfield township is attributed to migration.

ⁿ The parish of North Wingfield is wholly comprised in Sub-districts 448 : 1 and 2.

^o The increase of population in Claylane and Pilsley townships is attributed partly to the extension of coal mining and iron manufacture, and partly to the temporary presence of labourers engaged on railway works. Claylane includes the town of Claycross.

^p The increase of population in the townships of North Wingfield, Tupton, Chesterfield, Newbold and Dunston, and also in the chapelry of Brimington and in the parish of Whittington, is attributed to the extension of coal mining and iron-works. The Municipal Borough of Chesterfield is co-extensive with the township.

^q The increase of population in Brampton parish is attributed to the establishment of potteries, and the extension of coal and iron works.

^r The remainder of the parish of Bolsover is in the Mansfield District (see 437 : 2).

^a The other parts of Bakewell parish are in Bakewell Sub-district (449 : 1) and Chapel-en-le-Frith District (450).

^b The remainder of Hathersage parish is in the Chapel-en-le-Frith District (450 : 2).

^c The increase of population in Hathersage township is attributed to the extension of the wire-drawing and needle manufacture.

^d Hope parish is wholly comprised in Sub-districts 449 : 3 and in 450 : 1 and 2.

^e The other part of Tideswell parish is in Chapel-en-le-Frith District (450 : 2).

450. CHAPEL-EN-LE-FRITH. ^f The other parts of the parish of Hartington are in

Ashborne and Bakewell Districts (447 : 5 and 449 : 1), in the former of which the are of the entire parish is returned.

^g The increase of population in Chapel-en-le-Frith parish is attributed partly to the presence of labourers engaged on railway works, partly to the erection of new print-works, and partly to the extension of lime-works.

^h The other parts of Glossop parish are in Hayfield District (451 : 1 and 2).

ⁱ The decrease of population in Castleton parish is attributed partly to the migration of lead miners and their families, and partly to the depression of cotton manufacture.

^k The remainder of Hathersage parish is in Bakewell District (449 : 3), where the area of Derwent township is included.

451. HAYFIELD. ^a The Hayfield District consists of two Poor Law Unions; viz., the Glossop Union, consisting of the ten townships which form the Glossop Sub-district, and the Hayfield Union, comprising the Hayfield Sub-district.

^b The whole of the parish of Glossop, except the township of Chinley, Bugsworth, and Brownside (see Chapel-en-le-Frith Sub-district, 450 : 2), is in Sub-districts 51 : 1 and 2.

^c The decrease of population in Padfield township is attributed to the removal of several hundred workmen who were employed in 1851 in constructing the Manchester Waterworks.

^d The decrease of population in the townships of Simmondley, Charlesworth, and Chisworth is attributed to the cessation of work in several coal mines.

^e The other townships of the parish of Stockport are in Stockport and Ashton Districts (452 and 474, Div. VIII.)

ECCLESIASTICAL DISTRICTS.

TABLE (A.)—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

** The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has, in some cases, been experienced in preparing from the Census returns a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts and New Parishes, but their absolute correctness cannot be vouched for.
The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.
Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood the date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 18, returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as is practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Office of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for Sub-district; and the form of the return has also enabled these to be localised to their several parishes and places. Although, from the extent of many of the Ports, the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

NOTE.—The new District Parishes and Ecclesiastical Districts formed under the authority of various Acts of Parliament will be found returned in a supplement to Table (A.) at the end of the return of population, &c. in parishes.

The letter (W) denotes that a Workhouse is situated within the limits of the parish or place, and included in the return. A Table showing the number of persons in the principal Public Institutions in each District will be found at the end of the Division; see Table (B.)

Persons on board vessels on the night of April 7th, 1861, are returned with the general population; for details, see Table (C.)

The names of places printed in capitals (thus, HYDE) are those of parishes which contain Towns of the same name; Cities and Boroughs are distinguished in the same manner. A detailed statement of the population of the cities, boroughs, and towns of upwards of 2000 inhabitants is given under the respective Counties in Part I.

Where the name of the Registration or Union County in which a parish or place is returned is different from that of the county to which it belongs, the name of the latter is printed in italics.

The AREAS of parishes and places are reprinted from the Census Tables of 1851; the quantities distinguished by a different type (thus, 3210, Marple) were assigned to the parishes and places by the late Mr. Rickman in the Enumeration Abstract for 1831; in these cases the records in the custody of the Tithe Commissioners did not supply the means of arriving at a more accurate result. The Areas marked thus (w) include Water or Sea Coast; for details, see Table (D.)

452. STOCKPORT. ^a The whole of the parish of Stockport, with the exception of Disley Stanley in the Hayfield District (451, Div. VII.), and Dukinfield in the Ashton-under-Lyne District (474), is comprised in the Stockport District.

^{aa} No Man's Land is described as extra-parochial.

^b The increase of population in the township of Bredbury is mainly attributed to extended colliery operations, the manufacture of hats, and the railway works in progress.

^c The increase of population in the township of Hyde is attributed to the establishment of cotton-mills and the construction of a railway.

^d The decrease of population in the township of Werneth is attributed to a reduction in the number of hands employed in the cotton-mills, owing to improvements in machinery.

^e The other parts of the parish of Manchester are in the Districts of Barton-upon-Irwell (470), Chorlton (471), Salford (472), Manchester (473), and Ashton-under-Lyne (474).

^f Cheadle parish is wholly comprised in Sub-districts 452: 4, 6, and 7.

^{ff} The townships of Cheadle Bulkeley and Cheadle Moseley are wholly comprised in Sub-districts 452: 4 and 6.

^g The Stockport First Sub-district consists of three Wards of the Borough of Stockport (comprising parts of the townships of Stockport, Cheadle Bulkeley, and Cheadle Moseley), viz. Edgeley Ward, St. Thomas's Ward, and Middle Ward. The part of Stockport township in the Stockport Second Sub-district consists of St. Mary's Ward and Portwood Ward. For the Borough of Stockport, see Part I.

^h The decrease of population in the hamlet of Bosden (which forms part of the township of Handforth with Bosden) is attributed to the migration of miners. The entire township of Handforth with Bosden contained 2408 persons in 1861.

ⁱ The decrease of population in the township of Torkington is attributed to the removal of families from dilapidated houses, and to the discontinuance of a boarding school.

453. MACCLESFIELD. ^k The parish of Prestbury is wholly comprised in the Macclesfield District (see Sub-districts 453: 1-8).

^l The decrease of population in the township of Worth is attributed to migration owing to want of employment in the collieries.

^m The decrease of population in the townships of Woodford and Newton is attributed to the migration of young persons in search of employment.

^a The parish of Prestbury is wholly comprised in the Macclesfield District (see sub-districts 453:1-8).

^{aa} The decrease of population in the township of Adlington is mainly attributed to cessation of work at a colliery.

^b The decrease of population in the township of Butley is attributed to a reduction in the number of hands employed in a silk factory.

^c The increase of population in the township of Bollington is attributed to the employment afforded in the cotton factories.

^d The increase of population in the township of Taxal is attributed to railway advantages and proximity to cotton-mills and collieries.

^e The part of the township of Macclesfield which forms the *East Macclesfield* Sub-district is that situate eastward of the turnpike road leading from Stockport to Leek; the *West Macclesfield* Sub-district comprises all that part of the township situate westward of the said road.

^{ee} The decrease of population in Macclesfield and in the township of Sutton is attributed to continued depression in the silk trade. For the *Borough of Macclesfield* see Part I.

^f The decrease of population in the township of Wildboarelough is attributed to the discontinuance of employment in an extensive carpet-printing establishment.

^g The decrease of population in the township of Bosley is attributed to the conversion of silk and cotton establishments into corn-mills, and to the pulling down of houses.

^h The decrease of population in the township of Eaton is attributed to the decline in the silk trade. The principal part of Astbury parish is in the Congleton District (457).

ⁱ The other parts of the parish of Rostherne are in the Altrincham District (see 454:3 and 4).

^k The increase of population in the township of Chorley is attributed to proximity to Manchester and to facilities of railway communication.

^l Wilmslow parish is wholly comprised in Districts 453 and 454.

^a For the City of Chester, see Part I.

^b This return includes the part of the parish of St. Mary-on-the-Hill within the limits of the city of Chester; for the outlying townships of the parish, see Sub-districts 459 : 3 and 4. The increase of population in this part of St. Mary-on-the-Hill parish is mainly attributed to the establishment of neighbouring chain, cable, and anchor works, &c., and of carriage works belonging to the Northern division of the Great Western Railway.

^c The areas of Spittle-Boughton and Chester Castle are returned with that of the parish of St. John-the-Baptist.

^d This return includes the part of the parish of St. Oswald within the ancient limits of the city of Chester. For the outlying townships of this parish, see below; also Sub-districts 459 : 1 and 2.

^e Chester Castle, Little St. John and Hospital, and Cathedral Church Precincts, are described as extra-parochial places. There were no military stationed in Chester Castle Barracks at the Census of 1861. The area of the Cathedral Church Precincts is included in that of the parish of St. John-the-Baptist in Sub-district 459 : 2.

^f The decrease of population in the parish of St. Peter is attributed to the removal of families to adjoining parishes, consequent on the pulling down of houses.

^g The increase of population in the parish of St. Bridget is chiefly confined to detached portion which formerly consisted of fields, but is now known as the Queen's Park.

^h The increase of population in the parish of St. Martin is attributed to the erection of barracks and cottages.

ⁱ The parish of St. Oswald is wholly comprised in District 459.

^j The outlying townships belonging to the parish of St. Mary-on-the-Hill are in Sub-districts 459 : 3 and 459 : 4; the part of the parish within the city of Chester is in Sub-district 459 : 2.

^k The increase of population in the township of Upton is attributed to the enlargement of the Lunatic Asylum, and to the erection of houses and cottages.

^l The increase of population in Hoole is attributed to the proximity of the township to the Chester Railway Station.

^m Stanlow, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

ⁿ A small portion of the parish of Stoke, consisting of part of the township of Whitby, is in the Wirral District (see 460a : 2).

^o The townships belonging to the parish of Shotwick are wholly comprised in Sub-districts 459 : 3 and 4.

Shotwick Park is described as extra-parochial.
The parish of St. Mary-on-the-Hill is wholly comprised in Sub-districts 459: 2, 3, 4.
The increase of population in the township of Sealand is attributed to the closure of marsh land for agricultural purposes.
The increase of population in the township of Saltney is attributed to the employment afforded at candle, manure, and iron works, to the opening of collieries, and to the establishment of a corn-mill and of a wire rope manufactory.
Claverton, formerly extra-parochial, and now a parish for the purposes of the Act 20 Vict. c. 19, is without houses and inhabitants.
460a. WIRRAL. ^f Several houses in the township of Ness have been pulled down.
^g The decrease of population in that part of the township of Whitby, situate in Eastham parish, is attributed to the facilities of railway conveyance having caused a partial cessation of canal traffic. The entire township of Whitby contained 792 persons in 1861.
^h The principal part of the parish of Stoke is in Sub-district 459: 3.
ⁱ The increase of population in Bromborough township is attributed to the establishment of an extensive candle manufactory.
^k The other part of Bebington parish, viz. Tranmere township, is in the Birkenhead District (see 460b: 2).

^a The parish of Kirkham is wholly comprised in Sub-districts 482:5, 483:1, and 484:1.

^{aa} The increase of population in the township of Medlar with Wesham is attributed to additional employment in cotton-mills.

^b The parish of St. Michael-on-Wyre is wholly comprised in Sub-districts 482:5, 483:1, and 484:2.

^c The parish of Lytham is resorted to as a watering-place during the season; to its amenity of situation, salubrity of air, and railway advantages may be attributed its increase of population.

^d The hamlet of Little Marton is united with Great Marton (483:3) to form the township of Marton, which contained 1691 persons in 1861. The area is returned with Great Marton. The entire parish of Poulton-le-Fylde is comprised in Sub-districts 483:2 and 3.

^e The increase of population in the parish of Bispham, which is formed of the townships of Bispham-with-Norbreck and Layton-with-Warbreck, is attributed to the improvements and attractions of Blackpool, a watering-place in Layton-with-Warbreck.

484. GARSTANG. ^f The parish of Lancaster, parts of which are in Sub-districts 482:5 and 484:1-3, is mostly in the Lancaster District (485).

^g With the exception of the townships of Pilling (484:1) and Bilsborrow (484:2), the parish of Garstang is in Sub-district 484:3. The townships of Forton, Holleth, and Cleveley are said to be partly in the parish of Cockerham, but they are wholly returned under Garstang parish.

^h The decrease of population in the township of Catterall is attributed to the discontinuance of employment in a bobbin-mill, and a reduction in the number of hands employed in a cotton mill.

ⁱ The decrease of population in the township of Garstang is attributed to the migration of the labouring classes and to the pulling down of old cottages.

^k The increase of population in the chapelry of Bleasdale is mainly attributed to the establishment of a reformatory for boys.

485. LANCASTER. * The parts of Lancaster parish not comprised in the Lancaster district are in Sub-districts 482:5 and 484:1-3.

† The decrease of population in the township of Over-Wyresdale is attributed to destruction, by fire, of a cotton factory.

‡ The decrease of population in the township of Thurnham is attributed to the removal of families to manufacturing towns. The township of Thurnham is partly in Lancaster parish and partly in Cockerham parish, and contained 717 persons in 1851.

§ The increase of population in the township of Ellel is attributed to the erection of a silk factory and the re-opening of a cotton factory.

¶ Cockerham, formerly extra-parochial, is now a parish for the purposes of the Act 20 Vict. c.19.

‡ The increase of population in Poulton is attributed to the introduction of the railway, to the establishment of the pig-iron trade, and to the increasing prosperity of the township as a seaport. It is much resorted to in the summer as a watering-place.

§ The other parts of Bolton-le-Sands parish are in the Warton Sub-district (5:8).

^b For the Borough of Lancaster, see Part I.

^c The increase of population in the township of Scotforth is attributed to the erection of houses on that part of the township which adjoins Lancaster.

^k Lancaster Castle is described as extra-parochial.

^l The decrease of population in the township of Caton with Littledale is attributed to the discontinuance of employment in a silk-mill.

^m The remaining part of the parish of Melling, consisting of the township of Arkholme with Cawood, is in the Arkholme Sub-district (485:7).

ⁿ The decrease of population in the township of Roeburndale is attributed to migration.

^o The remainder of Thornton-in-Lonsdale parish is in the Settle District (488, Div. IX).

^p The decrease of population in the township of Cantsfield is attributed to the removal of a seminary.

^q The decrease of population in the township of Gressingham is attributed to the removal of an academy, and to the migration of families to other localities.

^a The other part of the parish of Bolton-le-Sands, viz., the township of Slyne with Hest, is in the Lancaster Sub-district (485:3).
^b The decrease of population in the township of Over Kellet is attributed to migration, owing to the removal of dilapidated cottages.
^c The increase of population in the township of Carnforth is attributed to the erection of a Junction Railway Station.
^d 486. ULVERSTON. ^d The decrease of population in the township of Cartmel Fell is attributed to the discontinuance of employment in a bobbin-mill.
^e The decrease of population in the township of Lower Holker is attributed to the removal of many of the labouring classes to the iron ore districts.
^f The decrease of population in the township of Upper Holker is attributed to the destruction by fire of a cotton-mill, in which, when rebuilt, fewer hands were employed.
^g The decrease of population in the parish of Colton is attributed to the stoppage of a flax-mill and to the discontinuance of employment in a bobbin-mill.
^h The parish of Ulverston is wholly comprised in Sub-districts 486:2, 3, and 6.
ⁱ The increase of population in the townships of Osmotherley and Ulverston, and the parish of Pennington, is attributed to the extension of mining operations.

^k The increase of population in the Sub-district of Dalton is attributed to the extended operations of raising and smelting iron ore. The return for Dalton-in-Furness includes 131 persons on board vessels in 1861.
^l The decrease of population in the township of West Broughton is attributed to the completion of the Whitehaven and Broughton Railway. A decrease has taken place throughout this Sub-district, consequent on the demand for iron-ore miners &c. in the parish of Dalton-in-Furness.
^m Angerton, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19, and includes the places called Moss-houses, Waitham-Hill, Marsl Field, Herd House, Angerton, and Angerton Hall.
ⁿ The increase of population in the township of Church Coniston is attributed to the extension of copper mining.
^o The decrease of population in the township of Hawkshead with Monk Coniston and Skelwith is attributed to the removal of agricultural labourers to manufacturing districts.
^p The decrease of population in the township of Satterthwaite is attributed to migration, owing to the uncertainty of employment in bobbin-mills, and to the superseding of manual labour by machinery.

ECCLESIASTICAL DISTRICTS.

TABLE (A).—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

* The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has in some cases been experienced in preparing from the Census returns a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts and New Parishes, but their absolute correctness cannot be vouched for.
 † The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.
 ‡ Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood at the date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1861 returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for each Sub-district; and the form of the return has also enabled these to be localised in the several parishes and places. Although, from the extent of many of the Ports, and the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficient correct for all general purposes.

rations under Gilbert's Act; † are incorporations under Local Acts; places printed in italics are parishes under the 43d Elizabeth.
The numbers here returned for the Poor Law Unions, &c. will not in all cases agree with those previously given for the Superintendent Registrars' Dis-
tricts, as the latter include places (some of which were formerly, and others are still, described as extra-parochial) which are not parts of the Union.

NOTE.—The new District Parishes and Ecclesiastical Districts formed under the authority of various Acts of Parliament will be found returned in a supplemental Table (A.) at the end of the return of population, &c. in parishes.

The letter (W) denotes that a Workhouse is situate within the limits of the parish or place, and included in the return. A Table showing the number of persons in the principal Public Institutions in each District will be found at the end of the Division; see Table (B.)

Persons on board vessels on the night of April 7th, 1861, are returned with the general population; for details, see Table (C.)

The names of places printed in capitals (thus, SKIPTON) are those of parishes which contain TOWNS of the same name; Cities and Boroughs are distinguished in the same manner. A detailed statement of the population of the Cities, Boroughs, and Towns of upwards of 2000 inhabitants is given under the respective counties in Part I. Where the name of the Registration or Union County in which a parish or place is returned is different from that of the county to which it belongs, the name of the latter is printed in italics.

The AREAS of parishes and places are reprinted from the Census Tables of 1851; the quantities distinguished by a different type (thus, 1380, Burton-in-Lonsdale Township) are assigned to the parishes and places by the late Mr. Rickman in the Enumeration Abstract for 1831; in these cases the records in the custody of the Tithe Commissioners do not supply the means of arriving at a more accurate result. The Areas marked thus (w) include Water or Sea Coast; for details, see Table (D.)

88. SETTLE. ^a The decrease of population in the township of Dent is attributed to depression of hand-loom cotton weaving.

^b The other part of the parish of Thornton-in-Lonsdale is in the Lancaster District (5), Div. VIII.

^c The parish of Clapham is wholly comprised in Sub-districts 88: 1 and 2.

^d The apparent decrease of population in the township of Clapham-cum-Newby is attributed to the withdrawal of a number of labourers who were engaged in 1 on railway works.

^e The decrease of population in the townships of Langeliffe, Settle, and Giggleswick is attributed to the stoppage of cotton-mills and the dispersion of mill hands.

^f The decrease of population in Wigglesworth township is attributed to the migration of farm labourers and their families, consequent upon the junction of farms.

^g The principal part of the parish of Gisburn is in the Clitheroe District (479), Div. VIII.

^h The other part of Kirkby-in-Malham-Dale parish, viz., Calton township, is in the Skipton District (489).

504a. PONTEFRACT. a Ledstone township is said to be partly in Kippax parish, but is wholly returned here.

b The parish of Sherburn extends into the Sub-districts 504a : 1 and 2, but the principal portion is in the Tadcaster District (514).

c The principal part of Birkin parish is in the Selby District (513).

d The townships which constitute the parish of Pontefract are partly in the Knottingley Sub-district (504a : 2), and partly in the Pontefract Sub-district (504a : 4).

e Parts of Womersley parish are in the Knottingley and Whitley Sub-districts 504a : 2 and 3) and in the Hensworth District (504b).

f The townships which constitute the parish of Kellington are partly in the Knottingley Sub-district (504a : 2), and partly in the Whitley Sub-district (504a : 3).

g The other parts of Snaith parish are in the Goole District (512) and in the Selby District (513).

h The return for Pontefract township includes the Castle Preenets, consisting of three houses (two inhabited and one uninhabited) containing six persons in 1861, which have never been assessed to the poor's rate nor to any rate or tax whatever. The Municipal Borough of Pontefract is co-extensive with the township; for the Parliamentary Borough, see Part I.

i The increase in the number of houses and population in Tanshelf township is attributed to the facilities afforded for the purchase of land in small building allotments.

k The increase of population in Castleford township arises from the establishment of several new glass manufactories, potteries, and iron-works.

0. DONCASTER. * The other part of the parish of Braithwell, viz. Bramley town-
ship, is in the Rotherham District (509).

The increase of population in Balby-with-Hexthorpe is attributed to the proximity
of the township to a railway station, and to the opening of a new floor-cloth factory.

The parish of Doncaster is wholly returned in Sub-districts 510 : 1, 3, 5.
Carr House Liberty and Elm Field Estate, formerly extra-parochial places, and
returned with Warmsworth parish in 1851, now form a parish for the purposes of the
Act 20 Vict. c. 19.

The parish of Mexborough is wholly comprised in Sub-districts 510 : 1 and 2.
The large increase of population in that part of Mexborough in the Barmbrough
Sub-district is mainly attributed to the proximity of this part of the parish to the
South Yorkshire Railway Company's works at Swinton.

The decrease of population in the parish of Bolton-upon-Dearne is attributed

to the migration of the labouring classes in search of employment on railways and
in iron-works.

Stotfold is described as extra-parochial.

Migration in search of employment is the cause of the decrease of population in
Barmbrough parish.

The increase of population in the township of Doncaster is attributed to the
establishment of the Great Northern Railway works. The Municipal Borough of
Doncaster is co-extensive with the township.

The township of Sutton is wholly comprised in Sub-district 510 : 4, and contained
112 persons in 1861.

The parish of Barnby-upon-Don is wholly comprised in the Campsall Sub-district
(510 : 4) and in the Bawtry Sub-district (510 : 5).

* The decrease of population in Wilfred township is attributed to the removal of a number of houses for the improvement of the approaches to a new bridge over the use.

^{aa} The decrease of population in the parish of St. Michael-le-Belfry is attributed to the conversion of dwelling houses into warehouses, and to the pulling down of two streets in order to afford a better approach to York Minster.

^b The decrease of population in the parishes of St. Martin in Coney Street, St. Andrew, and Holy Trinity Kings Court, is mainly attributed to the conversion of residences into warehouses.

^c Davy Hall, formerly extra-parochial, has become a parish for the purposes of the Act 20 Vict. c. 19.

^d The parish of Holy Trinity Micklegate is wholly comprised in Sub-districts 92a: 3 and 515: 3.

^g The other part of Acomb parish is in the District of Great Ouseburn (492a).

^k The increase of population in St. Maurice-in-the-Suburbs, St. Cuthbert, part of, and St. Lawrence, part of, is attributed to the migration of a number of families from the more confined parts of the city to these parishes. The parish of St. Lawrence is wholly comprised in this Sub-district.

^l The areas of these parishes are included with the area of the rest of the City of York in Sub-district 515: 2. For the other parts of the parishes of St. Cuthbert and St. Saviour, see Heworth township.

§ The townships composing the parish of Eastington are wholly comprised in Sub-districts 517: 3 and 4.

cc Cheapsides, formerly extra-parochial, is now a parish for the purposes of the Act of 20 Vict. c. 19.

c Anlaby township is sometimes stated to be partly in the parish of Hessle.
d The other part of the parish of Preston is in the Skirlaugh District (522).
e The increase of population in the townships of Drypool and Southcoates is attributed to the opening of two large iron-ship building establishments, in which many hands are employed.
f Garrison Side, formerly extra-parochial, is now a parish for the purposes of the Act of 20 Vict. c. 19. The decrease of population in this parish is attributed to the removal of the military who were stationed in Hull Citadel in 1851. The increase in the number of inhabited houses is owing to the conversion of the barracks into dwellings.

§ Sculcoates parish is wholly comprised in Sub-districts 519 : 7 and 8.
§§ The increase of population in the Sub-districts of West Sculcoates and Myton is mainly attributed to the extension of traffic in the Port of Hull, to the residence of persons who formerly inhabited the more populous parts of the Borough of Hull, and to the operations of Building Societies.
520. HULL. h For the Borough of Kingston-upon-Hull, see Part I.
i The united parishes of Holy Trinity and St. Mary form the Hull District, which for purposes connected with the relief of the poor is under a Local Act. The return for Holy Trinity and St. Mary parishes in 1861 includes 2487 persons on board vessels.
k The decrease of population in Whitefriars ward is attributed to the removal of the union workhouse to the North Myton ward, and to the conversion of residences into business premises.

ECCLESIASTICAL DISTRICTS.

TABLE (A).—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

*** The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has, in some cases, been experienced in preparing from the Census returns a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts and New Parishes, but their absolute correctness cannot be vouched for.

The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.

Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood at the date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1861, returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for each sub-district; and the form of the return has also enabled these to be localised in the several parishes and places. Although, from the extent of many of the Ports, and the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

NOTE.—The new District Parishes and Ecclesiastical Districts formed under the authority of various Acts of Parliament will be found returned in a supplemental table (A.) at the end of the return of population, &c. in parishes.

The letter (W) denotes that a Workhouse is situated within the limits of the parish or place, and included in the return. A Table showing the number of persons in the principal Public Institutions in each District will be found at the end of the Division; see Table (B.)

Persons on board vessels on the night of April 7th, 1861, are returned with the general population; for details, see Table (C.)

The names of places printed in capitals (thus, DARLINGTON) are those of parishes which contain TOWNS of the same name; Cities and Boroughs are distinguished in the same manner. A detailed statement of the population of the Cities, Boroughs, and Towns of upwards of 2,000 inhabitants is given under the respective counties in Part I.

Where the name of the Registration or Union County in which a parish or place is returned is different from that of the county to which it belongs, the name of the latter is printed in italics.

The AREAS of parishes and places are reprinted from the Census Tables of 1851; the quantities distinguished by a different type (thus, 970 Cleasby) were assigned to the parishes and places by the late Mr. Rickman in the Enumeration Abstract for 1831; in these cases the records in the custody of the Tithe Commissioners did not supply the means of arriving at a more accurate result. The Areas marked thus (w) include Water or Sea Coast; for details, see Table (D.)

550. DARLINGTON. * The entire township of Stapleton contained 152 persons in 1861.

† The entire township of Croft contained 466 persons in 1861.

‡ Great Smeaton parish is wholly comprised in Sub-districts 534: 1 and 540: 1.

§ The other parts of Gilling parish are in Northallerton and Richmond Districts 534 and 539).

¶ The parish of Darlington is wholly comprised in Sub-districts 540: 1 and 2.

† The increase of population in Darlington township is attributed to the establishment of large iron furnaces and rolling mills, and of extensive works for making and repairing locomotive engines and railway carriages.

§ The parish of Gainford is wholly comprised in the Darlington and Aycliffe Sub-districts (540: 1 and 2) and in the Auckland and Teesdale Districts (542 and 543).

^e Parts of Stainton parish are comprised in Sub-districts 541a : 1 and 2, and in Stokesley District (53b), Div. IX.

^f The large increase of population in Middlesborough parish is attributed partly to the number of furnaces, rolling mills, and other works erected for the manufacture

of iron, and partly to the establishment of new chemical works and an iron-ship building yard. The return includes 439 persons on board vessels. For the Municipal Borough of Middlesborough, see Part I.

^g The increase of population in Billingham township is attributed to the extension of the iron manufacture.

^h The decrease of population in Wolviston township is attributed to the removal of labourers employed in 1851 in draining the park at Wynyard.

ⁱ The increase of population in Thornaby, Stockton-upon-Tees, and Norton is attributed to the erection of blast furnaces, &c. for the manufacture of iron, and to the opening of iron-ship building yards. The return for Stockton-upon-Tees township includes 134 persons on board vessels. For the Borough of Stockton, see Part I.

^a The increase of population in Trimdon parish is attributed to the extension of coal mining.

^b The increase of population in Sedgefield township is mainly attributed to the erection and occupation of the new County Lunatic Asylum.

^c The principal part of the parish of Redmarshall is in Stockton Sub-district (541a : 2).

^d The other part of Aycliffe parish is in Darlington District (see 540 : 2).

^e The parish of Merrington is wholly comprised in Sub-districts 541a : 3, 542 : 1, and 545 : 3.

^f In Ferry Hill township a new village called Low Spennymoor has been built, the inhabitants of which are partly coal miners and partly workmen employed at the adjacent foundries.

541b. HARTLEPOOL. ^g The large increase of population in Stranton township is attributed to the formation of new docks and large timber ponds, which afford such facilities for trade that a new town has sprung up, called West Hartlepool.

^h The return for the parish of Hartlepool includes 1283 persons on board vessels. The Municipal Borough of Hartlepool is co-extensive with the parish.

ⁱ Part of Hart parish, viz., the township of Nesbitt, is in the Easington Sub-district (546 : 1).

542. AUCKLAND. ^j The increase of population in most of the parishes and townships comprising the Sub-district of Bishop Auckland is attributed to the opening of new collieries and the extension of the iron trade.

^k The parish of St. Andrew Auckland is wholly comprised in Sub-districts (542 : 1 and 2).

549. SUNDERLAND. * The parts of the parish of Bishop-Wearmouth not comprised in the Sunderland District are, Burdon township (see 546 : 1) and Silksworth township (see 547 : 1). The return for that part of Bishop-Wearmouth in Sub-district 549 : 1 includes 338 persons on board vessels.

b The township of Bishop-Wearmouth is composed of the parts in Sub-districts 549 : 1 and 2, with a small portion (situate north of Coronation Street) in Sub-district 549 : 4. The large increase of population in this township is attributed partly to the establishment of iron-ship building yards. The return for that part of Bishop-Wearmouth in Sub-district 549 : 2 includes 323 persons on board vessels.

c The increase of population in the Sub-district of South Bishop-Wearmouth is attributed to an influx of persons from adjacent parishes, owing to the removal of a large number of houses for the construction of docks, to the erection of houses contiguous to the docks, to the extension of the town in the direction of the park, and to the opening of new collieries, &c.

d The parish of Sunderland is wholly comprised in the Sub-districts 549 : 3 and 4. For the *Borough* of Sunderland, see Part I. The return for the township of Sunderland includes 759 persons on board vessels.

e The area of this part of Bishop-Wearmouth (which lies north of Coronation Street) is returned with that of the area of the other parts of the township in Sub-districts 549 : 1 and 2.

f The return for the parish of Monk-Wearmouth includes 220 persons on board vessels.

g The increase of population in the township of Monk-Wearmouth-Shore is mainly attributed to the extension of ship-building, and of chain, anchor, rope, and canvas factories, rolling mills, steam, saw, and flour mills, and of mining operations.

550. SOUTH SHIELDS. h The parish of Jarrow is wholly comprised in Sub-districts 550 : 1 and 2 and 551 : 1.

i The increase of population in Harton township is attributed to the presence of a number of labourers employed in the erection of a pier at the mouth of the Tyne.

j The increase of population in Westoe township is attributed mainly to the construction of extensive docks. Many houses of a superior class have been erected here since 1851.

k The decrease of population in South Shields township is attributed to the stoppage of the shipment of coal at the Pontop drops, in consequence of the opening of the Tyne Docks in the township of Westoe, where the workmen have gone to reside. The return includes 919 persons on board vessels. For the *Borough* of South Shields, see Part I.

l The large increase of population in the township of Hedworth, Monkton, and Jarrow is attributed to the extension of the iron-ship building trade.

551. GATESHEAD. m The increase of population in Heworth chapelry is attributed to the extension of chemical works.

n The increase of population in Gateshead parish is attributed to the establishment of various manufactories and of the workshops of the North-Eastern Railway Company. The district parish of Gateshead Fell contains 4613 inhabitants (2293 males and 2320 females) and 884 inhabited houses. For the *Borough* of Gateshead, see Part I.

o The increase of population in Winlaton and Ryton townships is attributed to the extension of the collieries.

a The parish of St. John Lee is wholly comprised in Sub-districts 555:2 and 555:4.
b The area of Anick Grange township includes that of Fallowfield and Hallington townships in the Chollerton Sub-district (555:4).
c The decrease of population in Middle-Quarter township is mainly attributed to the incorporation of small farms and to the removal of a lead manufactory to Allendale parish.

d The increase of population in West Acomb township is attributed to the extension of the lead mines, and to the opening of a new colliery.
e Black Carts with Ryehill, formerly extra-parochial, is now a parish for the purposes of the Act 20 Vict. c. 19.
f The increase of population in Newbrough parish is attributed to the opening of new lead mines and to an addition in the number of hands employed in the free-stone quarries and in the burning of limestone.

556. HALTWHISTLE. ^a The increase of population in Haltwhistle township is attributed to additional hands employed at lime and brick works, coal mines, and stone quarries.
^b The decrease of population in Blenkinsopp township is attributed to the cessation of work at a colliery.
557. BELLINGHAM. ^c The increase of population in Wellhaugh, Plashetts and Tynehead and Thorneyburn townships is attributed to the formation of a new line of railway.
^d The parish of Elsdon is partly in the Rothbury District (see 563 : 2).
^e The parish of Bellingham is wholly comprised in Sub-districts 557 : 1 and 2.
^f The decrease of population in Corsenside parish is attributed to the failure of the Ridsdale ironworks.
^g The other part of the parish of Kirkwhelpington, consisting of the township of Capheaton, is in the Castle Ward District (see 554 : 2).
^h The decrease of population in Kirkharle township is attributed to some of the farms having been laid down to grass, thereby diminishing the number of labourers employed in the township.

558. MORPETH. * Parts of the parish of Hartburn are in the Castle Ward and Rothbury Districts (554 and 563).

^b The increase of population in Hartburn Grange is attributed chiefly to the formation of a new line of railway.

^c The parish of Nether Witton is mostly in the Rothbury District (see 563 : 1).

^d The parish of Long Horsley is partly in the Rothbury District (see 563 : 1).

^e The other part of the parish of Hebburn is in the Bedlington Sub-district (558 : 2).

^f The parish of Morpeth is wholly comprised in Sub-districts 554:1 and 558:1 and 2. For the *Borough* of Morpeth, see Part I.

^g The increase of population in Bedlington parish, and likewise in the townships of North Seaton and East Chevington is attributed to the extension of the collieries.

^h The increase of population in Newbiggin is mainly attributed to the facts of the township being a fishing station, and a watering-place.

ⁱ Part of the parish of Warkworth is in the Alnwick District (see 559 : 1).

^a The increase of population in the township of Bothal Demesne is attributed to the extension of the collieries.
^b Hebburn parish is partly in the Morpeth Sub-district (558 : 1).
^c The parish of Felton is wholly comprised in Sub-districts 558 : 2 and 559 : 1.
^d Felton Path Foot is described as extra-parochial.
^e 559. ALNWICK. ^e The parish of Warkworth is partly in the Morpeth District (see 558 : 2).
^f The increase of population in Amble is attributed to the fact of large quantities of coal—the produce of two collieries—being shipped from this township.
^g The decrease of population in Warkworth township is mainly attributed to the destruction of a large corn mill which formerly gave employment to a considerable number of hands. Facility of railway communication has led to the migration of general labourers.
^h The area of Hulne Park is included in that of Abbey Lands and Canongate townships.
ⁱ Other parts of the parish of Eglington are in Sub-district 559 : 3, and in the Glendale District (562).

^a The decrease of population in Belford township is attributed to the removal of dilapidated houses.

561. BERWICK. ^b The increase of population in Ancroft parish is attributed to an addition in the number of hands employed in the collieries and lime kilns.

^c The decrease of population in Berwick-upon-Tweed parish is attributed to the completion of railway works, and to the removal of several large shoe manufactories. For the Borough of Berwick-upon-Tweed, see Part I.

^d In most of the townships comprised in the parish of Norham, labourers were, temporarily, employed in 1851 on railway works, which accounts for the present decrease of population.

^e The decrease of population in Cornhill township is mainly attributed to a reduction in the number of farm labourers employed.

562. GLENDALE. ^f In Carham parish, carters and labourers were formerly employed in the conveyance of coal and lime from the parish of Lowick to neighbouring parishes and to Roxburgh in Scotland; to the facilities of railway communication may be attributed their removal, and, hence, the decrease of population.

^g The entire parish of Kirk-Newton is comprised in Sub-districts 562 : 1 and 2.

^h The decrease of population in Ford parish is attributed to the closing of a colliery, and to a reduction in the number of hands employed in an extensive spade and shovel factory.

565. PENRITH. ^a The parish of Lazonby is wholly comprised in Sub-districts 565 : 1 and 3.

^b The other part of Caldbeck parish is in the Wigton District (see 569 : 3), where the area of the entire parish is returned.

^c The parish of St. Mary (Carlisle) is mostly in the Carlisle District (568).

^d The decrease of population in the parishes of Renwick and Crogin is attribute to a reduction in the number of hands employed in a coal pit, and in lime-burning.

566. BRAMPTON. ^a Carlutton, Geltsdale Forest, and Midgeholm, formerly extra-parochial, have become parishes for the purposes of the Act of 20 Vict. c. 19.

^b Wetheral parish is mostly in the Carlisle District (see 568 : 1).

^c The increase of population in the township of East Farlam is attributed to the erection of houses for the accommodation of colliers who formerly resided in Brampton.

^d The parish of Lanercost is wholly comprised in Sub-districts 566 : 2 and 3. The portions of Waterhead and Burtholme townships in the Brampton Sub-district are those lying south of the River Irthing; the portions lying north of the River Irthing are in the Walton Sub-district. Their respective populations in 1861 were 410 and 338.

^e The decrease of population in the township of Askerton is attributed to emigration and to the removal of agricultural labourers to other districts.

567. LONGTOWN. ^f A decrease of population has taken place throughout this Sub-district, with the exception of Nichol Forest chapelry, attributable to emigration and migration. Many dilapidated cottages have been pulled down.

^g The other part of the parish of Kirk-Andrews-upon-Esk is comprised in Sub-district 567 : 2.

^h The increase of population in Nichol Forest chapelry is attributed to the temporary presence of a number of labourers employed in the construction of a railway.

^a The other part of the parish of Kirk-Andrews-upon-Esk, viz. Nichol Forest chapelry, is in the High Longtown Sub-district (567 : 1).

^b The increase of population in the township of Moat Quarter is attributed to the temporary employment of labourers in the formation of a railway.

^c The increase of population in the township of Longtown is attributed to the establishment of a bobbin mill, and to the temporary employment of railway labourers.

563. CARLISLE. ^d Part of the parish of Wetheral, viz. Little Corby township, is in the Brampton District (566).

^e The area of Carleton is returned with that of English Street township.

^a The decrease of Population in the township of Church Town Quarter is mainly attributed to the pulling down of dilapidated cottages.

^b The decrease of population throughout this Sub-district, except in the township of Cummersdale, is attributed to the destruction, by fire, of a cotton mill, and to the depressed state of hand-loom weaving.

^{bb} The parish of St. Mary (Carlisle) is wholly comprised in Sub-districts 563 : 2, 3, and 6 and 565 : 2.

^c The increase of population in the township of Cummersdale is attributable to the erection of a cotton mill; many cottages have been built for the accommodation of those employed therein.

569. WIGTON. ^d The whole of the parish of Holme Cultram is comprised in Sub-districts 569 : 1 and 2.

^e The increase of population in the township of Low Holme is attributed to the erection of upwards of 100 houses at New Silloth, forming a new town and port.

^a The decrease of population in the township of West Newton and Allonby is attributed to the temporary absence of men on sea voyages, or employed in fishing.

^b Part of Aspatria parish is in the Cocker-mouth District (see 570 : 4).

^c Torpenhow parish is wholly comprised in Sub-districts 569 : 2, 570 : 1 and 4.

^d The Sub-district of Caldbeck is decreasing in population, consequent on its being an agricultural one; the introduction of artificial manure has lessened the demand for labour in lime-works in Caldbeck, and the lead mines in this parish, and the coal mines in the parish of Bolton, afford less employment than hitherto.

^e Part of Caldbeck parish, viz., the township of Mosedale, is in the Penrith District (see 565 : 2). The area of the entire parish is here returned.

570. COCKERMOUTH. ^f The area of the township of Bewaldeth and Snittlegarth is returned with the area of that part of the parish of Torpenhow in Sub-district 569 : 2.

^g Brigham parish is wholly comprised in Sub-districts 570 : 1-3.

^{gg} The parish of Lorton is wholly comprised in Sub-districts 570 : 1 and 2.

^h Wythop Mill is described as extra-parochial.

^{hh} The decrease of population in the township of Thornthwaite is attributed to the cessation of employment in a lead mine, in a bobbin mill, and in a saw mill. Newlands, Coledale, Braithwaite, and Thornthwaite form the township of Above Derwent for poor-rate purposes.

ⁱ Skiddaw and Briery Cottages, formerly extra-parochial, have become parishes for the purposes of the Act of 20 Vict. c. 19.

^a Brigham parish is wholly comprised in Sub-districts 570 : 1-3.
^b The area assigned to Brigham and Eaglesfield includes that of Blindbothel and Graysouthen townships.

^c The decrease of population in Cockermouth is attributed to the lessened demand for labour in an extensive hat manufactory, and to the decline of trade. For the Borough of Cockermouth, see Part I.

^d The whole of Bridekirk parish is comprised in Sub-districts 570 : 2-4.

^e The increase of population in the townships of Great and Little Broughton is attributable to the progress of colliery works.

^f The increase of population in the township of Seaton is attributable to the establishment of several blast furnaces.

^g The increase of population in the townships of Little Clifton and Great Clifton is mainly attributed to the opening of collieries.

^h Cloflocks, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19. It consists of 100 acres of grazing land, with a barn on the upper part, and on the lower part a ship-building yard with a patent slip running into the Workington Harbour. It contained no dwelling-houses in 1851 and 1861.

ⁱ The increase of population in Gilerux, Crosby, Dearham, and Flimby is attributed to the opening of extensive coal mines, and to the erection of houses for the accommodation of the workmen employed therein.

^k Torpenhow parish is partly in the Wigton District (see 569 : 2), where the area of Bothel and Threapland township is included.

^l The principal part of Aspatia parish is in the Wigton District (see 569 : 2).

571. WHITEHAVEN. ^m The decrease of population in the parish of Harrington is attributed to the lessened demand for labour in a colliery and to the discontinuance of employment in the chemical works.

ⁿ The decrease of population in the parish of Distington is attributed to migration, consequent on the discontinuance of operations in coal-pits and lime-stone quarries.

^o The large increase of population in the parish of Arlecdon is attributed to the demand for labour in coal and iron-ore pits.

^p Salter with Eskat, formerly extra-parochial, has become a parish for the purposes of the Act of 20 Vict. c. 19.

^a The parish of Kendal, otherwise Kirkby Kendal, is wholly comprised in Sub-districts 575:1, 2, 4, and 5.
^b The establishment of the railway station and the erection of houses connected therewith have increased the population of the township of Natland.
^c The area of these townships is returned with the area of the other parts of the parish of Kendal or Kirkby Kendal, in Sub-districts 575:1 and 2.
^d For the Borough of Kendal, see Part I.
^e The increase of population in Helsington township is attributed partly to the building of a mansion.
^f The other part of the parish of Heversham is in Sub-district 575:3.

^g The decrease of population in the township of Sedgwick is attributed to the removal of persons, who were employed in the gunpowder trade, to Preston-Richard.
^h The decrease of population in the township of Stainton is attributed partly to the discontinuance of employment in a foundry and in iron-works.
ⁱ The other part of the parish of Beetham is in Sub-district 575:3.
^j The decrease of population in the township of Beetham is attributed to the discontinuance of peat-carting, consequent on an intersection of the railway, and to the introduction of agricultural machinery.

ECCLESIASTICAL DISTRICTS.

TABLE (A.)—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

*. * The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has, in some cases, been experienced in preparing from the Census returns a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts and New Parishes, but their absolute correctness cannot be vouched for.
The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.
Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood at the date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1861, returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as is practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for each sub-district; and the form of the return has also enabled these to be localised in the several parishes and places. Although, from the extent of many of the Ports, and the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

The numbers here returned for the Poor Law Unions, &c. will not in all cases agree with those previously given for the Superintendent Registrars' Districts, as the latter include places (some of which were formerly, and others are still, described as extra-parochial) which are not parts of the Union.

NOTE.—The new District Parishes and Ecclesiastical Districts formed under the authority of various Acts of Parliament will be found returned in a supplemental Table (A.) at the end of the return of population, &c. in parishes.

The letter (W) denotes that a Workhouse is situate within the limits of the parish or place, and included in the return. A Table showing the number of persons in the principal Public Institutions in each District will be found at the end of the Division; see Table (B).

Persons on board vessels on the night of April 7th, 1861, are returned with the general population; for details, see Table (C).

The names of places printed in capitals (thus, CHEPSTOW) are those of parishes which contain Towns of the same name; Cities and Boroughs are distinguished in the same manner. A detailed statement of the population of the Cities, Boroughs, and Towns of upwards of 2,000 inhabitants is given under the respective Counties in Part I.

Where the name of the Registration or Union County in which a parish or place is returned is different from that of the county to which it belongs, the name of the latter is printed in italics.

The AREAS of parishes and places are reprinted from the Census Tables of 1851; the quantities distinguished by a different type (thus, 820 Chapel Hill) were assigned to the parishes and places by the late Mr. Rickman in the Enumeration Abstract for 1831; in these cases the records in the custody of the Tithe Commissioners did not supply the means of arriving at a more accurate result. The Areas marked thus (w) include Water or Sea Coast; for details, see Table (D.)

576. CHEPSTOW. ^a The decrease of population in the parish of Caldicott is mainly attributed to emigration.

^b The other part of the parish of St. Bride Netherwent, viz. Llandevey hamlet, is in the Newport District (see 580; 1).

^c The other part of Trelleck parish is in Monmouth District (see 577; 4).

^d St. Kingsmark, formerly extra-parochial, is now a parish for the purposes of the Act 20 Vict. c. 19. St. Arvans Grange Farm is described as extra-parochial.

^e The decrease of population in Chepstow and Tidenham parishes is attributed to the removal of labourers and workmen employed in 1851 on a tubular bridge across the Wye, and on railway works.

577. MONMOUTH. a The other part of the parish of Newland is in Ross District (347), Division VI.
b The increase of population in Bream tything is attributed to the extension of coal mining, and iron manufacture.
c The decrease of population in the agricultural tything of Newland is attributed to migration.
d The increase of population in West Dean township is attributed to the extension of trade since the opening of new coal mines and stone quarries, and to the operations of a Freehold Land Society. The Forest of Dean, formerly extra-parochial, has been formed by the Act 5 & 6 Vict. c. 48, into two townships, viz., West Dean and East Dean. East Dean township is in the Westbury-on-Severn District (334), Division VI.
e Treworgan, including Park Grace Dieu, formerly extra-parochial, has now become a parish for the purposes of Act 20 Vict. c. 19.
f For the Borough of Monmouth, see Part I.
g The other part of Trelleck parish, viz., Trelleck Grange chapelry, is in the Chepstow District (see 576 : 2).

581. CARDIFF. ^a The increase of population in the hamlets of Glyntaff and Rhydyboithan is attributed to the extension of manufacturing and of mining operations.
^b The principal part of Bedwas parish is in Newport District (580), Monmouthshire.
^c The decrease of population in Llanedarn parish is mainly attributed to migration; some dilapidated cottages have been pulled down.
^d The increase of population in the parish of Whitchurch is attributed to the extension of the tin and iron manufacture.
^e The increase of population in most of the parishes comprising the Cardiff Sub-district, especially in Roath, St. John and St. Mary, Llandaff, Llandough, Penarth, and Cogan parishes, is attributed to the extension of dock, harbour, and railway works, and to the coal and iron trades. For the Municipal and Parliamentary Borough of Cardiff, see Part I. The return for St. Mary Cardiff includes 1721 persons on board vessels.
^f Highlight and Llanvithin, formerly extra-parochial, have become parishes for the purposes of Act 20 Vict. c. 19.
^g The decrease of population in St. Nicholas parish is mainly attributed to the temporary absence of two of the principal families.
^h The increase of population in the parish of St. Andrew is attributed to the residence of labourers employed in constructing docks in adjoining parishes.
ⁱ The increase of population in the parishes of Pentyrch and Llantrisant is attributed to the extension of the iron manufacture, and to the opening of new coal mines. For the Parliamentary Borough of Llantrisant, which is contributory to the Cardiff District of Boroughs, see Part I.
582. MERTHYR TYDFIL. ¹ The increase of population in Llanwonno parish is attributed to the extension of collieries, and to the construction of a railway.

^a For the Parliamentary Borough of Holywell, which is contributory to the Flint District of Boroughs, see Part I.

^b The decrease of population in the parishes of Ysceifiog and Halkin is attributed to migration and emigration, owing to the lessened demand for labour in lead mines, some of which are exhausted and others only partially worked.

^c For the Municipal and Parliamentary Borough of Flint, see Part I.

^d The parish of Mold is wholly comprised in Sub-districts 610: 4 and 611: 1.

^e The increase of population in the townships of Bistree, Broncoed, and Leeswood is mainly attributed to the opening of new collieries.

^f The decrease of population in the township of Gwernafeld is attributed to the stoppage of lead-mining operations.

^g Mold as assessed for poor rate purposes contained a population of 10,209 persons in 1861; it comprises the whole of the townships in that part of Mold parish in Sub-

district 610: 4, except Nerquis. The Parliamentary Borough of Mold, which is contributory to the Flint District of Boroughs, contained 3735 persons in 1861, and is co-extensive with the township.

611. WREXHAM. ^h The increase of population in Tryddyn chapelry and in Brymbo township is attributed to the additional employment afforded in iron works, in coal, iron, and lead mines, and to the operations of building societies.

ⁱ For the Parliamentary Borough of Caergwyle, which consists of part of the parish of Hope, and is contributory to the Flint District of Boroughs, see Part I.

^j The other parts of Gresford and Wrexham parishes are in Sub-district 611: 4.

^k The remainder of Shocklach parish is in Great Boughton District (459), Cheshire, Div. VIII.

^l Threapwood, formerly extra-parochial, has become a parish for the purposes of Act 20 Vict. c. 19.

^d The increase of population in the parishes of Llanllechid and Llanfairfechan is attributed to the extension of slate and stone quarrying.
622. CONWAY. * The increase of population in Dwygyfylchi is attributed partly to the extension of stone quarrying. The parish is resorted to as a watering-place during the season.

^e The increase of population in Conway is attributed to the sale of land for building purposes, consequent on the parish being resorted to by visitors. For the Parliamentary Borough of Conway, which is contributory to the Carnarvon District of Boroughs, see Part I.
^f The parish of Llandudno is resorted to as a watering-place during the season.
623. ANGLESEY. ^a The district of Anglesey consists of the two Poor Law Unions of Anglesey and Holyhead. There are no workhouses for these Unions, out-door relief being given in all cases.
^b For the Parliamentary Borough of Llangefni, which is contributory to the Beaumaris District of Boroughs, see Part I.

^a Gwredog, Bodewryd, and Rhosbeirio, formerly extra-parochial, have become parishes for the purposes of the Act 20 Vict. c. 19.

^b The decrease of population in Llanfechell parish is mainly attributed to emigration.

^c For the Parliamentary *Borough* of Amlwch, which is contributory to the Beaumaris District of Boroughs, see Part I.

^d The return for Holyhead parish in 1861 includes 295 persons on board vessels. For the Parliamentary *Borough* of Holyhead, which is contributory to the Beaumaris District of Boroughs, see Part I.

ECCLESIASTICAL DISTRICTS.

TABLE (A.)—HOUSES and POPULATION enumerated on April 8th, 1861, in NEW DISTRICT PARISHES and ECCLESIASTICAL DISTRICTS, formed, under the Authority of various Acts of Parliament, by the Ecclesiastical Commissioners—the Commissioners for building New Churches—and the Bishops of the several Dioceses.

***The boundaries of these Ecclesiastical subdivisions are not generally known, and considerable difficulty has, in some cases, been experienced in preparing from the Census returns a statement of the population. The numbers here given have been in every instance submitted to the inspection of the Incumbents of the various Ecclesiastical Districts and New Parishes, but their absolute correctness cannot be vouched for.
The return does not include persons on board vessels lying in waters contiguous to the Districts or Parishes.
Where the original limits of an Ecclesiastical District have been altered by a Supplemental Order, the return of houses and population applies to the District as it stood at the date of the Census.

PERSONS ON BOARD VESSELS.

TABLE (C).—NUMBER of PERSONS on board VESSELS in HARBOURS, RIVERS, and CREEKS on the Night of April 7th, 1861, returned with the General Population of Parishes, &c.*

Note.—In order that persons on board ship might, as far as practicable, be assigned to the Districts contiguous to the waters in which the vessels were lying, the Officers of Customs at the various Ports, and the local Registrars, were put in communication, and were instructed to take such steps as would admit of the numbers being stated for each Sub-district; and the form of the return has also enabled these to be localised in the several parishes and places. Although, from the extent of many of the Ports, and the difficulty of attending strictly to boundaries as applied to water, complete accuracy was scarcely attainable, it is believed that the numbers thus returned are sufficiently correct for all general purposes.

The numbers here returned for the Poor Law Unions, &c. will not in all cases agree with those previously given for the Superintendent Registrars' Districts, as the latter include places (some of which were formerly, and others are still, described as extra-parochial) which are not parts of the Union.

There is no precise return of the area of the Isle of Man, which is, however, stated to contain about 180,000 acres. In the Parliamentary Paper No. 74, Session 1835, it is said to contain only 134,000 acres, which Mr. McCulloch regards as below the mark (Mr. McCulloch's *Account of the British Empire*, Vol. 1., pp. 220-2).

* The Town of Douglas contains 12511 inhabitants; the return includes the Isle of Man Hospital with 10 inmates, the House of Industry with 66 inmates; also 111 persons in vessels.

b The return for Castletown includes 36 persons in Castle Rushen Gaol.

c The parish of Rushen includes the villages of Port St. Mary and Port Erin, and the Island of Calf of Man, containing 25 inhabitants.

The following Note on the returns for 1861 has been furnished by James Burman, Esq., Clerk of Council, and Secretary to the Lieutenant Governor of the Isle of Man:—A general decrease appears to have taken place in the rural population of the Island, which is attributed to the large number of young persons who go for employment to England, where wages are considerably higher, as well as to emigration to the United States and the Colonies.

The following are the exceptional cases:—

Peel.—The increase may be attributed to the general improvement of trade, and especially the increase of ship building.

Lezayre.—Increase from contiguity to the increasing town of Ramsey.

Ramsey.—Many English residents have recently settled in this town.

Donan.—The extension of the Laxey mines has been the cause of this increase.

Conchan, Landward-part.—The apparent decrease has been occasioned by the extension of the boundaries of the Town of Douglas.

Douglas is rapidly rising as a watering-place and as a place of trade.

Rushen.—The extension of mines has increased the population in this parish.

There are no correct returns of the areas of the several parishes.

^a The parish of St. Helier includes the village of Ville-es-Nouaux. The poor house and general hospital of the island, containing 324 persons, the gaol and house of correction, containing 41 persons, and the military in barracks with their families, 525 persons, as well as 135 persons in vessels in the harbour, are included in the return for the town and parish of St. Helier.

^b St. Saviour's parish includes George Town, a suburb of St. Helier, and the villages of Five-Oaks and Longueville.

^c St. Clement's includes the village of Le Bourg.

^d Grouville includes the ancient village of Gorey, but a considerable and populous portion of the modern Gorey extends into the adjoining parish of St. Martin. This

latter portion embraces Gorey Harbour, and includes the crews of the oyster fishing vessels (205 persons) who were aloft on the night of the 7th April 1861, also 71 persons on board of Her Majesty's Ship "Dasher," stationed there for the protection of the fishery.

^e Trinity includes the village of La Croiserie.

^f St. Peter's includes the village of Beaumont.

^g St. Brellade's includes the town of St. Aubin and village of La Cœuerie.

^h St. Laurence includes the village of Millbrook.

The following Note on the returns for 1861 has been furnished by W. H. Gardner, Esq., Government Secretary, Jersey :—

The decrease of the population of the Island since 1851 is apparent in 10 of the parishes, and is attributable to emigration, and to the gradual disappearance of the advantage arising from residence being cheaper in the Island than in the mother country.

The large decrease in the population of the parishes of Grouville and St. Martin is occasioned chiefly by the suspension of labour consequent on the completion of one pier of the Government harbour of refuge at St. Catherine and the abandonment of the remaining projected works. The same cause has influenced the decrease in Trinity parish, owing to the granite quarries of Mont-Mado not being worked to the same extent as at the period of the last Census.

St. Saviour continues to be a favourite parish with native families removing out of town and families coming to reside in the Island, from the beauty of the country and its proximity to the town of St. Helier ; hence the increase of its population and houses.

The increase in St. Peter's parish is exclusively owing to the barracks being occupied by military and their families, 323 in number ; whereas in 1851 there were no troops stationed there.

The area of Jersey is 44½ square miles, or 28,717 acres. The largest, though not the most populous of the rural parishes, is that of St. Ouen (3,707 acres), which has a large quantity of unproductive land, and is the most remote from St. Helier : while the smallest parish is St. Clement's, containing 1044 acres.

The following Note on the returns for 1861 has been furnished by Captain W. Bell, Secretary to Government, Guernsey :—

As regards the increase and decrease of population in particular parishes of this Island, I must in the first place state that the large increase in the Vale and St. Sampson parishes is owing to the extension of the stone trade during the last ten years in that part of the island, and the consequent demand for additional labour. This trade, by raising the price of labour generally, has attracted population from without, in addition to which it has also placed high wages within the reach of very young men, and it has thus led to the great number of marriages which have of late taken place at a very early age. The increase in the parishes of St. Martin and Torteval is comparatively so small, that I conclude, generally speaking, it may be put down to persons returning from emigration.

With reference to the decrease in the parishes of St. Peter Port, St. Andrew, Catel, and St. Saviour, the Dean and the Rectors of these parishes are unable to account for the very great decrease in the first-named parish, where the largest falling off appears to be. I conclude that at times trade is so dull, that numbers leave the parish and proceed to other parts of the Island in search of work, to say nothing of the numbers which have emigrated from this to different parts of the world within the last few years. In St. Andrew in 1851 the mortality in the parish alone was more than double the average; still neither the excessive mortality in that year, nor the subsequent emigration of some of the inhabitants, will account for the diminution. There is, however, a large number of marriageable adults of both sexes who remain unmarried, especially among the landed proprietors, and this fact, together with the mortality in 1851 resulting from scarlet fever, is the only account the Rector feels able to give of the decrease in the population.

Having detailed as far as possible the reasons for the increase and decrease of the population in this Island, I have to state that as regards Alderney, the increase in that island is owing to the very large increase of workmen employed in it, carrying on the Government works there; but in a few years, as soon as the work is complete, the falling off will be very great.

I beg now in conclusion to forward a certified copy of the number of births and deaths which have been declared at the Registrar's Office from 1851 to 1860 in the Island of Guernsey; but this is by no means the full amount, as there are certain denominations who never register either the births or deaths at the Registrar's Office. Those now forwarded from Alderney are, I believe, correct.
